Update: Water Main Break as of 10:30am Monday

Although flushing and line sanitizing in all of the affected subdivisions of the Hwy 84 area have been completed, the boil order notice cannot be officially lifted until the State releases the results of tests on the water samples submitted to them. A boil notice is issued as a precaution to residents to either boil water prior to drinking it or use bottled water until the notice is lifted. All residents should have water to their homes and can use it as they personally decide. For further information call 299-CITY (2489).
