

Fire Hydrant Flow Test Procedure

There is no charge for existing fire hydrant flow information.

The cost for a fire hydrant flow test is \$60 each. The test will be performed once we receive payment. We call in a work order to the City of Waco Utility Department, usually the test can be done within two days depending on emergencies (tests cannot be done on Fridays). Arrangements can be made if you wish to be present for the test, or if you prefer to have the data emailed.

A test consists of two hydrants at the site, we flow the one farthest from the site and static the other closest to the site. However, you may specify which you prefer.

If paying by check:

Regular Mail send to:
P.O. Box 2570
Waco, TX 76702

Overnight send to:
401 Franklin
Waco, TX. 76701

If paying by credit card: We except only Visa, MasterCard, & Discovery.

To request flow information or to request a flow test contact:
Dorothy Gonzales (DorothyG@ci.waco.tx.us) (254) 750-6628
Linda Dvorak (LDvorak@ci.waco.tx.us) (254) 750-6629

For any backflow prevention information contact Mike Sykora.
