Boil Water Notice for Mourning Dove Ln.

Due to the outage of a well and the resulting low water pressure, the City of Waco water system (PWS#1550008) is notifying all customers residing along Mourning Dove Ln., of the need to boil their water prior to consumption.

This is a precautionary notice due to low water pressure.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from another suitable source.

When it is no longer necessary to boil the water, water system officials will notify all that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, please call 299-CITY (2489).
