Boil Water Notice for Old Lorena Rd. at Chapel Rd. and Spring Valley Rd. Area

Due to three separate leaks in the area today and the subsequent drop in water pressure, the City of Waco water system (PWS#1550008) is notifying all customers, residing along or on roads adjoining: Chapel Rd., from Belver Rd. east to Farmiller Rd., along Spring Valley Rd., from Old Lorena Rd. east to the city limits of Hewitt and along Old Lorena Rd. from Spring Valley Rd. north to Haley Hill Rd., of the need to boil their water prior to consumption.

This is a precautionary notice due to low water pressure.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from another suitable source.

When it is no longer necessary to boil the water, water system officials will notify all that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, please call 299-CITY (2489).
