## **Boil Water Notice for Southey St., E. Oak St. Taylor St. Area**

Due to a highway contractor breaking a water main that serves a small area of the city, the City of Waco water system (PWS#1550008) is notifying all customers, residing on Southey St., E. Oak St., Church, Cottonbelt St., Price St., Earle Ave., Taylor St. and S. Loop Dr., between Taylor St. and Earle Ave., of the need to boil their water prior to consumption. (Please see attached map.)

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from another suitable source.

When it is no longer necessary to boil the water, water system officials will notify all that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, please call 299-CITY (2489).
