**City Engineers Seek Public Comment to Define Flood Areas**

Waco, Texas (November 4, 2015) – The City of Waco is currently developing a Storm Water Master Plan and will be hosting a public comment meeting on November 10 from 5:30 p.m. until 8:30 p.m. at the Lion’s Den, located at 1716 N.42nd Street in Waco.

City staff and engineering consultants have made every effort to document areas that have historically experienced flooding, as well as areas that experienced flooding due to recent record breaking rains. To augment these studies, the City is soliciting input and comments from the public to better define problem areas. City staff, along with the City’s consulting engineers, will be on hand to document input and also provide maps and ongoing efforts in developing the master plan.
