City Seeks Volunteer Help for Water Sampling

Waco, Texas (July 29, 2014) – The City of Waco Water Utilities is seeking help from water customers with an easy task that will help ensure great water quality. The department is currently looking for volunteers to assist with the Lead and Copper Monitoring Program, and it's as simple as filling a bottle with water!

The City of Waco is required by the State of Texas to collect samples for monitoring lead and copper and would greatly appreciate your participation. Volunteers must meet the following qualifications:

- a) A current City of Waco water customer
- b) Currently live in a house (not an apartment)

For more information, please contact Sally French at (254)750-1666 or Frances Daniels at (254)750-1662. Volunteers are needed by August 1, so a speedy response from the public would be greatly appreciated – thank you!
