Major Water Line Break Causing a Reduction of Pressure in the North Waco Area

A major break in a 24 inch water line behind Heritage Quarters Apts in Downtown Waco near Barron's Branch Creek is causing a reduction in water pressure in a large section of North Waco. Crews are at the scene and will evaluate the extent of repairs needed. Anyone experiencing low water pressure is asked to limit the use of water to avoid additional reduction in pressure to the area.

Citizens can call the City of Waco Public Information Hotline at 750-5606 to receive the latest status and information on this break.
