Boil Water Notice for Old Lorena Rd., Mourning Dove Ln. Chapel Rd. Area

Waco, Texas (November 2, 2016) – Due to issues arising while connecting a new water line, the City of Waco water system (PWS#1550008) is notifying all customers residing west of Old Lorena Rd., from Warren Rd. north to Riverview Rd., as well as, customers on Summer Harvest Dr., Leutwyler Ln., El Gato Ln. and Chapel Rd., east of Old Lorena Rd., of the need to boil their water prior to consumption. (Please see attached map.)

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from another suitable source.

When it is no longer necessary to boil the water, water system officials will notify all that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, please call 299-CITY (2489).
