American Airlines Increases Flights from Waco

WACO, TEXAS (July 25, 2022) – At the peak of operations at the Waco Regional Airport, American Airlines operated five daily departures to Dallas Fort-Worth International Airport (DFW). COVID-19 greatly impacted service at the Waco Regional Airport by reducing the service to one daily departure. As air transportation rebounded, American Airlines was able to return to pre-pandemic levels and currently offers five daily departures to DFW.

As a result of increased demand and continued growth in commercial air transportation, American Airlines has announced the addition of one daily departure from the Waco Regional Airport starting August 17, 2022. This will increase our service to six daily departures to DFW and add an additional 50 seats to the market.
