- The FY23 budget shows continued tightness between the General Fund budget for salaries and wages and actual expenses
- The City continued to see strong sales and hotel-motel tax revenues; however, the growth in both did not always exceed the year over year rate of inflation indicating the growth is a product of increased costs not necessarily increased activity.
- Solid Waste and Cottonwood Creek Golf Course outperformed expectations this year while the Cameron Park Zoo did not meet expectations due to lower admissions and merchandise sales revenue.

## Looking Forward

- FY24 budget saw an \$8M increase in the Sales Tax budget making it in line with FY23 actuals
- FY24 General Fund budget includes one-time funding that draws down fund balance by over \$7M
- FY24 sales tax collections have started off sluggish and have not kept pace with inflation, the State of Texas and in the case of November dropped off from the prior year
- Economic backdrop and consumer sentiment will be key trends to watch in FY24 as we continue to get closer on budgeted revenues and expenses to actual performance
