The City of Waco China Spring Park Project Update

02.04.2025

Jonathan Cook, Director of Parks & Recreation

China Spring Park Project Update

Purpose

- Provide background on the China Spring Park Development Project
- Review planning values and needs assessment
- Discuss current design and planned amenities and receive feedback
- Next steps

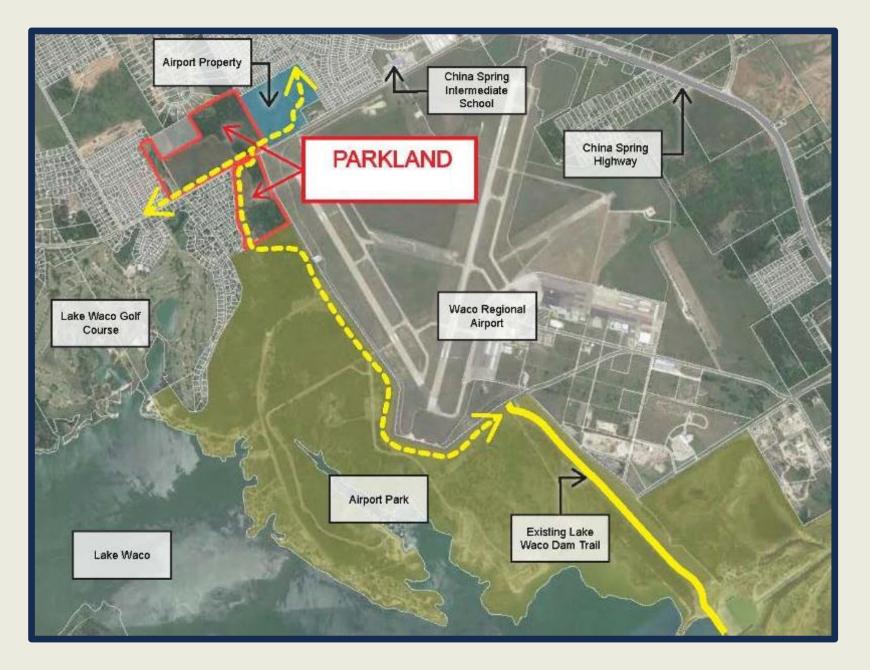

Project Background

WE ARE HERE

- Parkland in the China Spring area was identified as a priority in 2017 Parks, Recreation and Open Spaces Master Plan.
- Purchase of 85 acres for \$3.2 million approved by City Council in December 2022
- Contract of \$669k awarded to RVi Planning and Landscape Architecture. Visioning and design process in September 2023
 - Site analysis
 - Community input with surveys, neighborhood meetings public, input meetings and stakeholder meetings
 - Vision Plan
 - Schematic and Design Development
 - Construction Documents
- Current construction funding includes \$3.7 million of CIP project funds

Park Location

- A natural setting with potential for recreation and connectivity
 - Airport and Fire Station
 - Neighborhoods and School
 - Lake Waco and Corps of Engineers Property
- Two parcels of undeveloped land, located along Flat Rock Road, near the Skeet Eason intersection.
 Property is on both sides of Flat Rock Road

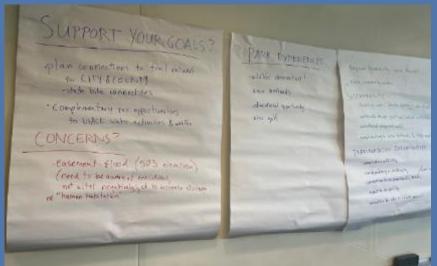

Site Analysis

Community Led Visioning

- 900 completed surveys
- Neighborhood meetings
- Public input meetings
- Stakeholder meetings

PLANNING VALUES

In conjunction with the City of Waco the following values were created as a guideline for the design and vision of China Spring Park. These planning values were created, refined, and finalized through a design team and client stakeholder workshop, as well as input received during a public meeting, and community survey. These values act as guideposts to direct the design team throughout the planning process, ensuring that any and all design decisions can point back to the value on which it is based.

Natural Amenities

Enhance and Preserve Park Natural Amenities

- protect existing watershed and streams
- improve or create habitat areas
- locate intensive uses to minimize impact on natural areas
- improve the health and function of the watershed

Community

Foster Social Interaction and Community Cohesion

- develop amenities for families and people of all ages
- include amenities that welcome people of different abilities
- reserve space for community programming
- create gathering spaces

Passive Recreation

Connection with Nature/Provide Passive Recreation

- create places for wildlife observation
- develop trail network within the park
- plan connections to larger trail networks for city and county
- provide seating, picnic areas, or other places to pause and relax

Safety Keep Safety in Mind

- work towards providing safe ways for pedestrians and bikers to access the park
- incorporate features such as lighting into the park
- utilize principles of CPTED (Crime Prevention through Environmental Design)
- consider effects of cars and park activities on surrounding neighborhoods

Active Recreation

Promote Active Recreation for Fun and Fitness

- provide open space for a variety of field sport uses
- encourage kids to be active with variety of play equipment
- ensure trails and trail materials support walkers, bikers, runners

Education

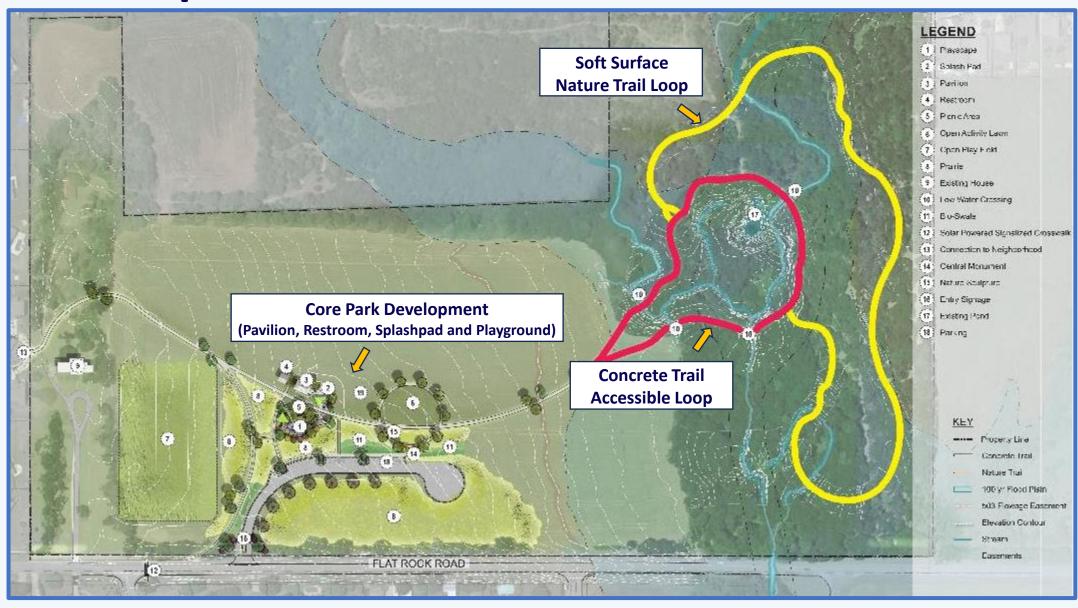

Learning about the Environment

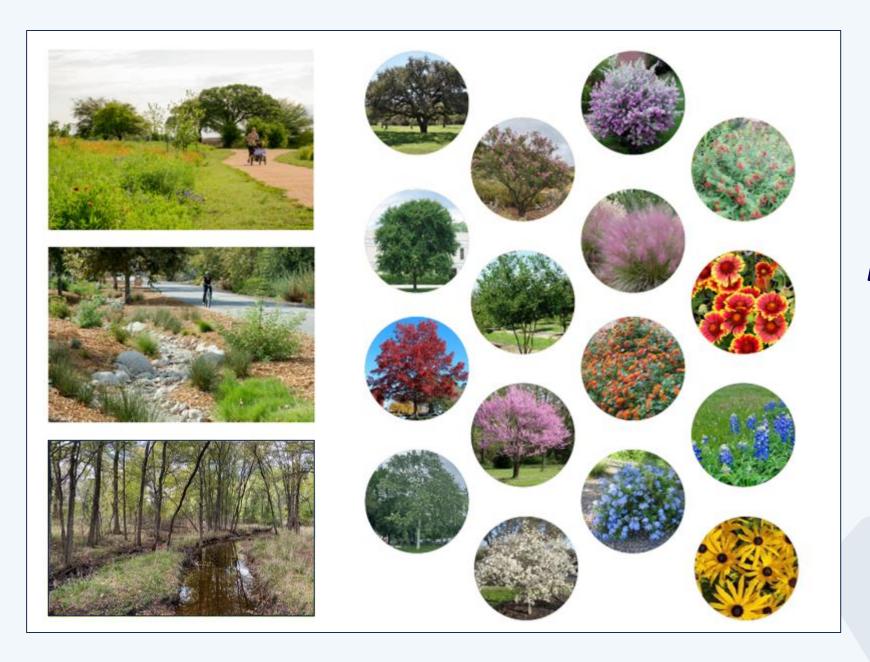

- provide ways to learn about parts of the natural world like birds and other wildlife, plants, or water systems
- complement nearby environmental education opportunities
- make sustainable components of park design visible or understandable

Status and Timeline

China Spring Park Project Summary / Next Steps

Summary

- February 2025 Final Construction Documents
- February April 2025 Permitting and Bidding
- May 2025 Notice to Proceed / Construction Start
- Estimated Construction Timeline: 9-12 months
- Spring 2026 Estimated Projected Completion
