

## Waco Metropolitan Planning Organization Policy Board

**Meeting Date:** April 17, 2025

**Agenda Item: Consideration and Action regarding approval of Resolution 2025-9: Waco MPO Policy Board approval of Fiscal Year 2024 Annual Project Listing (APL).**

**Comments:** At the end of every calendar year, MPOs in cooperation with TxDOT and public transit agencies, are required to publish a list of projects for which federal funds have been obligated in the most recent Federal Fiscal Year, which runs from October 1 to September 30.

Waco MPO's FY 2024 Annual List of Obligated Projects (APL) lists projects in the Waco MPO planning area that had funds obligated in FY 2024. It contains projects included in FY 2024 of the Waco MPO Transportation Improvement Program (TIP) and subsequently listed in the Statewide Transportation Improvement Program (STIP). Some of the projects in this listing were grouped, and therefore were not listed individually in the TIP, but were let by the state, and covered in the STIP.

The Texas Department of Transportation (TxDOT) had instructed Texas MPO's to make the FY 2024 APL available on its public website to inform the public and the MPO Policy Board's decision regarding approval.

A total of \$19,409,162 in federal funds were obligated on transportation projects in the Waco MPO planning area in FY 2024:

- Highway projects = \$12,804,267
- Transit provider projects = \$4,575,674
- Bicycle & pedestrian projects - \$2,029,221

The MPO staff presented the draft UPWP to the MPO Technical Advisory Committee (TAC) during its April 3<sup>rd</sup> meeting. The TAC recommended approval.

**Action Required:**

1. Conduct Staff Presentation
2. Conduct Public Hearing
3. Adopt, disapprove or adopt with changes Resolution 2025-9

**Motion By:**

**Seconded:**

**Content of Motion:**
