## **Legend for Draft Special Provisions to Standard Specifications for Construction:**

- Proposed deletion: ~~struck through text~~
- Proposed addition: underlined text

## **Special Provision to Section 5.3-003 Concrete Curb and Gutter modifies SP 5.3-002.:**

Revised to provide:

- Clarified for conventionally formed curb and gutter there are two options, Option A placement of mortar topping and Option B finishing without placing of mortar topping.
- Require that one method, either conventionally formed concrete Option A, or conventionally formed concrete Option B, or extruded or slipformed concrete, shall be selected by the Contractor and used throughout the project to the extent possible for uniformity of finished curb and gutter.
