- **Answers to Open Questions.**
  - I looked through the documents and didn't see a Geotech. Is there one available or will one be issued before bid date?
    - A GeoTech was not done for the site. Engineering advises that no more than 6" will be required at depth. City crew evaluated down to 2' and found nothing in the area.
  - City be open to an alternative to lining the channel with concrete, using Armorflex?
    - The City is not interested at this time.
