January 15, 2013

To the Honorable Mayor, Members of the City Council and Citizens of the City of Waco, Texas:

The Comprehensive Annual Financial Report (CAFR) of the City of Waco (the City) for the fiscal year ended September 30, 2012, including the independent auditors' report, is hereby submitted. This CAFR is published to provide the Mayor and City Council, City staff, our citizens, our bond holders and other interested parties with detailed information concerning the financial condition and activities of the City government.

Responsibility for the accuracy of the data and the completeness and fairness of the presentation, including all disclosures, rests with the City. To the best of our knowledge and belief, the enclosed data is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operations of the various funds of the City. All disclosures necessary to enable the reader to gain an understanding of the City's financial activities have been included.

City management is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, rather than absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely derived; and (2) the evaluation of costs and benefits requires estimates and judgments by management.

The City Charter requires an annual audit by independent certified public accountants. The Waco City Council selected the accounting firm of Jaynes, Reitmeier, Boyd & Therrell, P.C. In addition to meeting the requirements set forth in the City Charter, the audit also was designed to meet the requirements of the federal Single Audit Act and related OMB Circular A-133. The independent auditors' report is presented in the financial section of this report.

The City is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, the Single Audit Act Amendments of 1996 and U. S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations* and the *Uniform Grant Management Standards* of the State of Texas. As a part of the City's single audit, tests are made to determine the adequacy of the internal control structure, including that portion related to federal and state award programs, as well as to determine that

the City has complied with applicable laws and regulations. The independent auditors' reports related specifically to the single audit are included in separate single audit reports.

Management's discussion and analysis (MD&A) immediately follows the independent auditors' report and provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal and should be read in conjunction with it.

PROFILE OF WACO

Today, the Waco area is rich in Texana. Waco is the 22nd largest city in Texas and the county seat of McLennan County, which has an area of more than 1,000 square miles. Historically, the City has been a trade and agricultural center for the Central Texas region. Efforts by the community's leadership over the past several years have led to diversification in the regional economy, a major factor contributing to significant improvement in growth and development.

The City of Waco operates under a Council-Manager form of government. Policy-making and legislative authority are vested in the City Council consisting of the Mayor and five Council Members. The City Council is responsible for, among other things, passing ordinances, adopting the budget, appointing citizens to boards and committees and hiring the City Manager, City Attorney, Municipal Judge, and City Secretary. The City Manager is responsible for carrying out the policies and ordinances of the City Council, for overseeing the day-to-day operations of the City government, and for hiring the heads of the various departments.

Council Members are elected by single-member districts on a non-partisan basis to serve twoyear terms. The Mayor is elected at-large and serves no more than three two-year terms. Elections for position of Mayor and two Council Member positions are held in even-numbered years while elections for three Council Member positions are held in odd-numbered years.

The City provides the following services as authorized by its charter: public safety, highways and streets, health and social services, cultural and recreational services, public improvements, planning and zoning and general administrative services. In addition to general government activities, the City provides water, wastewater and solid waste services, a municipal airport, a public transit system and a convention center. The City also is financially accountable for two legally separate entities, both of which are reported separately within the City's financial statements. Additional information on these legally separate entities can be found in the notes to the financial statements. (See Note I.A.)

Budgets are adopted on a basis consistent with generally accepted accounting principles. Annual, appropriated budgets are adopted for the General Fund, Health Programs Fund and General Obligation Debt Fund. All annual appropriations lapse at fiscal year-end. Also, projectlength financial plans are employed for all Capital Projects Funds and the Grant Fund.

Prior to August 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them. A public hearing is conducted to obtain taxpayer comments. Prior to October 1, the budget is legally enacted through passage of a resolution.

FACTORS AFFECTING FINANCIAL CONDITION

Local Economy

Waco is the approximate geographic center of Texas' population and is often referred to as the "Heart of Texas." At the confluence of the Bosque River and the 890-mile Brazos River, Waco lies between the three largest cities in the state: 90 miles south of Dallas, 200 miles northwest of Houston and 180 miles northeast of San Antonio. It is less than 100 miles from the State Capitol in Austin. The City sits on the rich southern agricultural Blackland Prairie on the east and cattle country of the rolling Grand Prairie on the west.

The central location in the state makes the City commercially attractive as a distribution center. Waco straddles the major north/south route of Interstate 35, "the Main Street of Texas," which stretches from Laredo at the Mexican border to Duluth, Minnesota in the north. The "port-to-plains" route of State Highway 6 crosses Waco east to west, leading from the Gulf Coast to the West Texas High Plains.

Economic experts predict a bright future for Waco because of the diversification of the manufacturing industry, influx of high technology companies, stability in the financial sector, availability of diverse higher education opportunities and steady population growth. Waco will continue to attract new industry because the City provides a high quality labor force, attractive real estate opportunities, favorable tax treatment and abundant natural resources.

Waco's main sources of income are primarily from educational and health services and manufacturing, according to Baylor University's Center for Economic Analysis. Any fluctuations in Waco's historically stable economy have originated in the manufacturing base. Waco's top ten taxpayers include a candy manufacturer, a soft drink bottler, an aircraft components manufacturer, and an eye care products manufacturer. Additionally, there are a couple of retail shopping centers, an electric utility, a food processing company and a couple of warehouses. Eight of the top ten employers are education, government, healthcare or manufacturing related.

The educational sector contributes significantly to the City's economic stability. Waco is the home of Baylor University, a private university with an enrollment of approximately 15,300. Baylor offers undergraduate degrees in 144 fields, 77 master's degree programs and 32 doctoral programs. McLennan Community College (MCC) is a public, two-year college with an enrollment of over 9,500 students. MCC offers a comprehensive range of educational programs including associates degree programs, workforce development training and continuing education courses. Additionally, several bachelor's and master's degree programs and one doctoral degree program are available on the MCC campus through partnerships with four-year state universities. With enrollment of over 5,200, Texas State Technical College offers nearly 100 associates degrees and certificates in a variety of engineering-related and emerging technology fields, preparing a workforce to meet the demands of industry and business.

The Waco Metropolitan Statistical Area (MSA) covers 1,000 square miles. The City encompasses 99 square miles, including 12 square miles of water, within the Waco corporate limits. The average Waco MSA civilian labor force grew 5.1% from 110,085 in 2007 to 115,653 by September 2012. Total employment at the beginning of fiscal year 2012 - 2013 was 108,681 while the unemployment rate was 6.0%.

Long-term Financial Planning

Unassigned fund balance in the general fund (22.21 percent of fiscal year 2013 budgeted revenues) falls within the financial management policy guidelines set by the City Council. In response to the implementation of Governmental Accounting Standards Board Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions* (GASB No. 54) in fiscal year 2011, the City Council established a new guideline designed to protect the City's creditworthiness as well as its financial position from unforeseeable emergencies.

The City's five-year Capital Improvement Program is a plan for both long-term and short-term capital needs. Debt payments are structured to provide that capital assets funded by debt have a longer life than the debt associated with those assets. Regarding general obligation debt, the City adopted a policy in fiscal year 2011 to strive each year to decrease the use of debt financing to meet the long-term goal of funding capital expenditures with non-debt sources.

Relevant Financial Policies

In addition to the general fund balance financial policy mentioned above, the City also strives to maintain a positive unrestricted net assets position in the City's water, wastewater and solid waste funds to provide sufficient reserves for emergencies and revenue shortfalls. In addition, the minimum working capital shall be 30% of annual revenues. The working capital percentages at September 30, 2012, for the water, wastewater and solid waste funds were 56.94%, 61.74% and 63.23%, respectively.

Major initiatives

In 2007, voters approved a \$63 million bond election to provide for improvements to many City facilities. These projects, which include the Convention Center, police headquarters, libraries, fire stations, park improvements and renovations at the Texas Ranger Museum, among others, among others, are all complete with the exception of the police project. The police headquarters building will be complete in June 2013.

The City is progressing on several capital improvements that increase water supply capability by 50% and extend regional service while adding capacity to the sewer system. The plant work on both the water and sewer side is 99% complete. Other projects moving forward include a major interceptor evaluation and rehabilitation project geared to bolster interceptor integrity and miscellaneous water distribution improvements aimed at improving our capability of distributing our additional 50% of plant production capability. The City's water quality and quantity improvements along with the wastewater system upgrades position Waco and Central Texas extremely well for economic development and residential growth for coming generations. In an effort to revitalize the downtown area, community leaders and stakeholders have developed and completed the Greater Downtown Master Plan. As a result of this effort, the establishment of a downtown development corporation is complete. Riverfront development has been greatly enhanced with the start of construction on the \$250 million Baylor Stadium located on the banks of the Brazos River. Efforts will continue on the development of available property in the downtown and river corridor.

Financial Information

Information on the City's general accounting policies and budgetary controls is provided in the Notes to the Financial Statements.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Waco for its comprehensive annual financial report for the fiscal year ended September 30, 2011. This was the 30th consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine our eligibility for another certificate.

The City has also received GFOA's Popular Annual Financial Reporting Award for the fiscal year ended September 30, 2011 and the Distinguished Budget Presentation Award for the fiscal year beginning October 1, 2011.

The preparation of the CAFR was made possible by the dedicated service of the City staff. Members of various City departments exhibited true team spirit, and each one has our sincere appreciation for the contributions made in the preparation of this report.

We also acknowledge the thorough, professional, and courteous manner in which our independent auditors, Jaynes, Reitmeier, Boyd & Therrell, P.C., conducted the audit.

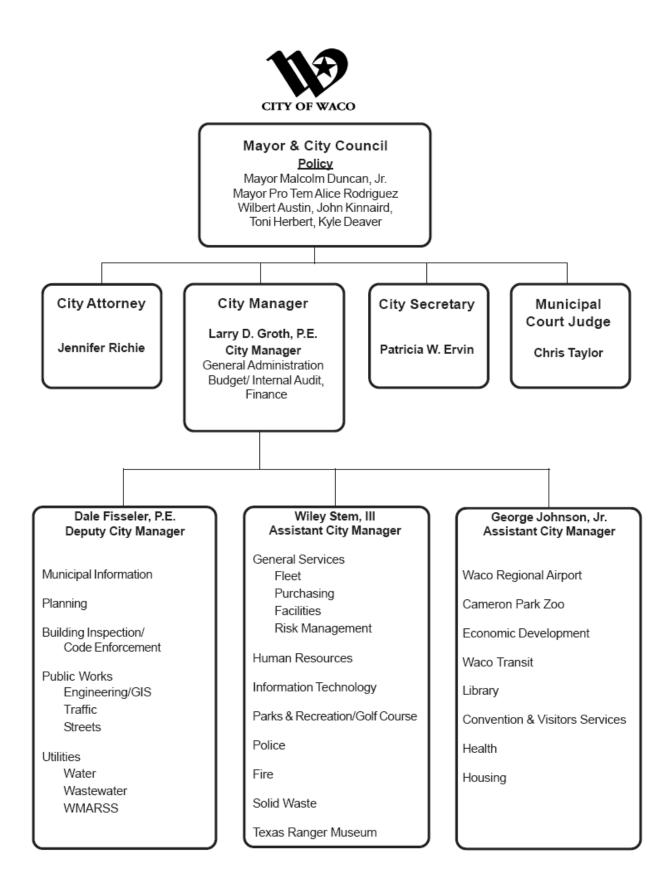

In closing, without the leadership and support of the governing body of the City of Waco, preparation of this report would not have been possible.

Respectfully submitted,

WyQ Sil

Lárry D. Groth, P.E. City Manager

Offices in Austin and Waco

Independent Auditors' Report

To the Honorable Mayor and Members of the City Council City of Waco, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Waco, Texas, as of and for the year ended September 30, 2012, which collectively comprise the City's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the City of Waco, Texas' management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Waco, Texas, as of September 30, 2012, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated January 15, 2013, on our consideration of the City of Waco, Texas' internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the

scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u>, and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 7 through 19 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Waco, Texas' financial statements as a whole. The introductory section, combining and individual fund financial statements and schedules. and statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated in all material respects in relation to the financial statements as a whole. The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

January 15, 2013

Management's Discussion and Analysis

Management's Discussion and Analysis

As management of the City of Waco (the City), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended September 30, 2012. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages xi through xv of this report.

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded its liabilities as of September 30, 2012 by \$493,562,247 (net assets). Of this amount, \$73,304,841 (unrestricted net assets) may be used to meet the City's ongoing obligations to citizens and creditors in accordance with the City's fund designation and fiscal policies.
- The City's total net assets increased by \$16,966,973.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$81,997,668. The fund balance components are nonspendable \$1,243,144, restricted \$42,735,116, committed \$8,894,786, assigned \$7,140,115 and unassigned \$21,984,507. The City Council approves the amounts reported as committed and assigned.
- As of September 30, 2012, unassigned fund balance for the General Fund was \$21,984,507 or 22.21% of the 2013 budgeted general fund revenues.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements – The government-wide financial statements, which begin on page 23 of this report, are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The Statement of Net Assets presents information on all of the City's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The Statement of Activities presents information showing how the City's net assets changed during the fiscal year. All changes in net assets are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (governmental activities) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the City include general government, public works, public safety, culture and recreation, public health, and housing and community development. The business-type activities of the City include water, wastewater, solid waste, airport, convention services, Ranger Hall of Fame, Cameron Park Zoo, transit services, and Cottonwood Creek Golf Course.

The government-wide financial statements can be found on pages 23 - 25 of this report.

Fund financial statements – A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All funds of the City can be divided into three categories – governmental funds, proprietary funds, and fiduciary funds.

Governmental funds – Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statements of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

Beginning on page 26 of this report, information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the general fund, which is considered a major fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance. Data from all other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining and individual fund statements and schedules elsewhere in this report.

Proprietary funds – The City maintains two types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses enterprise funds to account for water, wastewater, solid waste, airport, convention services, Ranger Hall of Fame, Cameron Park Zoo, transit services, and Cottonwood Creek Golf Course operations. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions.

The City uses its internal service funds to account for its risk management, health insurance, engineering, and fleet services. These internal service functions have been included within governmental activities in the government-wide financial statements.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary fund financial statements which begin on page 38 of this report provide separate information for the water, wastewater, and solid waste enterprise funds since these are considered to be major funds of the City. Data from the other enterprise funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor enterprise funds is provided in the form of combining and individual fund statements and schedules elsewhere in this report. All internal service funds are combined into a single aggregated presentation in the proprietary fund financial statements. Individual fund data for the internal service funds is provided in the form of combining and individual fund data for the internal service funds is provided in the form of combining and individual fund data for the internal service funds is provided in the form of combining and individual fund data for the internal service funds is provided in the form of combining and individual fund statements and schedules elsewhere in this report.

Fiduciary funds – Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statement because the resource of these funds is not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds. The Statement of Fiduciary Net Assets can be found on page 43 of this report.

Notes to the Financial Statements – The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 45 through 87 of this report.

Other information – In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules that further support the information in the financial statements. The combining and individual fund statements and schedules are presented immediately following the notes to the financial statements beginning on page 93 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net assets may serve over time as a useful indicator of the government's financial position. In the case of the City of Waco, assets exceeded liabilities by \$493,562,247 as of September 30, 2012.

The largest portion of the City's net assets (\$397,959,316) reflects its investments in capital assets (e.g., land, building, equipment, improvements, construction in progress, infrastructure and water rights), less any outstanding debt used to acquire those assets. The City uses these

capital assets to provide service to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

City of Waco Net Assets

A portion of the City's net assets (\$22,298,090) represents resources that are subject to external restriction on how they may be used. The remaining balance (\$73,304,841) of unrestricted net assets may be used to meet the City's ongoing obligation to citizens and creditors in accordance with the City's fund designation and fiscal policies.

As of September 30, 2012, the City has positive balances in all three categories of net assets, both for the City as a whole, as well as for its governmental and business-type activities separately. The same situation held true for the prior fiscal year.

The government's net assets increased \$16,966,973 during the current fiscal year.

Analysis of the City's operations – The following table provides a summary of the City's operations for the year ended September 30, 2012. Governmental activities increased the City's net assets by \$8,134,203 and represented 47.9% of the total. Business-type activities increased the City's net assets by \$8,832,770 and represented 52.1% of the total increase.

Governmental activities – Key elements of the change in governmental net assets include:

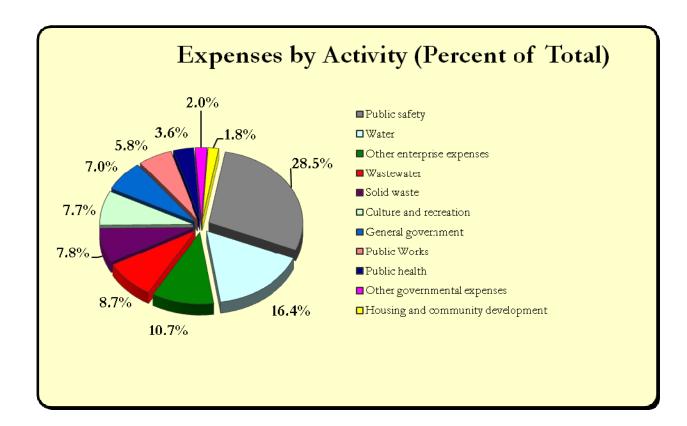

- Overall, governmental revenues increased \$6,334,220 (5.34%). Ad valorem taxes increased \$1,329,504 (2.51%), primarily as the result of \$115 million increase in appraised values from new construction assessments. Sales taxes reflected an increase of \$1,182,838 (4.22%). A gain on sale on land of \$1,730,200 was also reported. This represented a sale of City-owned property to the state highway department in connection with the construction of frontage road bridges on interstate highway I 35.
- Overall, governmental expenses decreased \$3,275,876 (2.79%). The City Council approved a 2.5% percent salary increase as well as job class step increases for some civil service employees based on rank and service time. But these increases were more than offset by savings resulting from changes to the City's retirement system, fuel, and electricity. Texas Municipal Retirement System (TMRS) has made significant changes in actuarial assumptions and funding methodology used in calculating their member cities' contribution rates starting in 2009. For the past four years, the City's contribution rate had been based on an eight-year phase-in period to get to the full contribution rate. The phase-in rates necessary to fund the plan provisions were continuing to increase each year. The TMRS benefit provisions were reviewed during the fiscal year 2012 budget process. The City Council approved a plan change to turn off annually repeating annuity increases for retirees. This plan change became effective January 1, 2012 and reduced the City's full contribution rate to 14.04% (as compared to an anticipated 2012 phase-in rate of 20.07% and full rate of 22.24%). This resulted in savings for pension expense for current salaries and net pension obligation of over \$4.4 million. General government expenses did report an increase of \$1,799,621 (14.54%) primarily due to a \$1.1 increase in economic development incentive projects funded in collaboration with McLennan County.
- The contribution of capital assets to business type activities funded by governmental capital projects decreased net assets by \$2.3 million primarily due to \$2.2 million contributed to the convention center major renovation project.

Business-type activities – Key elements of the increase in business-type net assets include:

- Total revenues decreased \$3,913,707 (3.96%) primarily due to charges for services which reported a decrease of \$3,742,537 (4.19%). The large decrease in the water fund of \$4.3 million (due to the milder summer as compared to the severe drought experienced in 2011) was partially offset by the \$583,448 increase reported in the solid waste fund (due to increased commercial accounts and landfill operations).
- Total expenses only reported a net increase of \$170,954 (.19%). Increased depreciation expense of \$2,547,935 related to capital improvement projects was offset with savings in other expenses. Savings were reported for employee benefits (\$757,153) primarily due to the decreases in pension expenses as discussed earlier, supplies (\$383,019) due to fuel and electricity savings, and interest expense (\$847,042) due to bond refunding issues and no new certificate of obligation issues in 2011 or 2012.

Government-wide activities – Total government-wide activities for 2012 are depicted in the graphs below:

FINANCIAL ANALYSIS OF THE GOVERNMENT'S FUNDS

Governmental funds - The focus of the City of Waco's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City of Waco's governmental funds reported combined ending fund balances of \$81,997,668. Approximately 1.5% (\$1,243,144) of this total amount constitutes nonspendable fund balance. Nonspendable fund balance represents net resources that cannot be spent because of their form or because they must remain intact. Included in this component are inventories, advances to other funds, and permanent funds. Approximately 52.2% (\$42,735,116) of the total fund balance is classified as restricted. Restricted fund balance reflects resources that are subject to externally enforceable legal restrictions. This classification includes debt service, capital projects, and special revenue funds such as tax increment zones. Approximately 10.8% (\$8,894,786) of the fund balance is reported as committed. Committed fund balances represent resources whose use has a self-imposed limitation imposed by the City Council and would require formal action to remove or modify the committment. This classification includes resources that have been committed for economic development initiatives. Approximately 8.7% (\$7,140,115) of the fund balance is reported as assigned which reflects the City's intended use of resources. These intended uses are approved by the City Council. The remainder of the fund balance of \$21,984,507 (26.8%) is reported as unassigned. Only the general fund can report a positive amount of unassigned fund balance. Refer to page 52 of this report for a more detailed presentation of governmental fund balances.

The City's Financial Management Policy Statements provide for general fund unassigned fund balance to be maintained at 18% of current year revenues. Unassigned general fund balance at the end of the current fiscal year is 22.21% of 2013 budgeted revenues. The fund balance of the general fund at the end of the current year reported an increase of \$2,927,611. Total revenues in the general fund increased \$2,372,999 as compared to the prior year and were \$2,368,283 more than budgeted. Key factors in general fund revenue are as follows:

- Growth in net taxable assessed property valuation of approximately \$115 million from new construction is reflected in the \$982,073 increase in property tax revenue. This revenue source represented over 39% of total general fund revenues.
- Sales tax revenue reported almost a \$1.2 million increase as compared to prior year, with actual amounts exceeding the amount budgeted for the fiscal year by \$958,951. This revenue source represents over 30% of total general fund revenues.
- Gross receipts fees, which had been budgeted very conservatively, also reported a \$20,568 increase as compared to fiscal year 2011 collections with actual amounts exceeding the amount budgeted for the fiscal year by \$860,961. Over 14% of total general fund revenues came from gross receipts fees.

Proprietary funds - The City's proprietary fund statements beginning on page 38 of this report provide the same type of information found in the government-wide financial statements, but in more detail.

Unrestricted net assets of the respective major proprietary funds are Water - \$25,370,694, Wastewater - \$17,616,986, and Solid Waste - \$6,734,301. These funds experienced increases in total net assets during 2012 as follows: Water - \$2,753,578, Wastewater - \$3,213,091, and Solid Waste - \$419,818.

General Fund budgetary highlights – Differences between the original budget and the final amended budget for appropriations were \$7,057,072. The primary differences can be briefly summarized as follows:

- \$260,000 increase for purchasing ROW for the FM 1637 project.
- \$46,695 increase for revision of the federal emergency management agency maps.
- \$407,564 increase for funds allocated to the Texas Ranger Headquarters Office project.
- \$934,943 increase for expenses related to the Parkside Village Apartment project.
- \$40,638 increase for information technology hardware upgrades.
- \$7,277 increase for regional marketing expenses.
- \$232,070 increase for police equipment in various divisions.
- \$77,811 increase for capital outlay in traffic.
- \$2,500,000 increase for Hawaiian Falls Water Park project.
- \$118,635 for City's forgiving debt owed by Waco Lion's Park.
- \$12,378 increase for municipal information's cable channel equipment.
- \$30,000 increase for security equipment in parks and recreation.
- \$42,000 increase for housing projects.
- \$80,098 increase in election expenses.

- \$1,446,487 increase for assistance with convention center, golf course and zoo operations.
- \$820,476 increase for economic development projects.

Of this increase, \$646,495 was from fund balance assigned for capital improvements, \$118,635 from fund balance assigned for economic development, \$976,943 from fund balance assigned for housing and community development, \$127,563 from fund balance assigned for culture and recreation, \$47,915 from fund balance assigned for other, \$216,082 from fund balance assigned for public safety, \$2,500,000 from fund balance committed for culture and recreation, \$820,476 from fund balance committed for economic development, \$546,821 from a nonspendable fund balance for advances to other funds, \$24,927 from increases in gross receipts taxes, \$67,549 from increases in contributions and \$963,666 from increases in sales tax.

Refer to the General Fund Statement of Revenues, Expenditures and Changes in Fund Balances -Budget and Actual on pages 29 to 37 of this report for a detailed presentation of the actual General Fund operations compared to both the original and final budget for fiscal year 2012.

CAPITAL ASSETS

The City of Waco's investment in capital assets for its governmental and business-type activities as of September 30, 2012, amounts to \$672,648,573 (net of accumulated depreciation). This investment in capital assets includes land, building, machinery and equipment, improvements other than buildings, infrastructure and construction work in progress. Major capital asset events occurring during the current fiscal year included the following:

- Expended approximately \$13.3 million on various water, wastewater, and solid waste systems projects.
- Capitalized \$7.3 million on various park facility improvements expenditures and contributions.
- Expended \$2.2 million on convention center renovations.
- Expended \$3.3 million on Airport Improvement Program projects.
- Expended \$5.1 million for library renovations and equipment..
- Expended \$7.4 million for police facilities and equipment.
- Capitalized \$7.0 million in street and drainage expenditures and contributions.

City of Waco Capital Assets

Additional information on the City's capital assets can be found in Note IV on pages 62 - 64 of this report.

DEBT ADMINISTRATION

At the end of the current fiscal year, the City of Waco had total bonded debt, loans and notes payable, and capital lease obligations of \$319,820,425. Of this amount, \$302,676,190 represents bonded debt backed by the full faith and credit of the government, and \$15,000,000 represents a state participation loan secured by water revenues and an interest in water storage capacity. The City's capitalized lease obligation of \$109,814 pertains to purchases of computer equipment. The \$2,034,421 note payable is for purchase of pump station and water transmission lines.

City of Waco Bonds, Notes and Capitalized Obligations Payable

During the 2012 fiscal year, the City issued \$3,480,000 in general obligation certificates of obligation. The proceeds will be used for various general City improvements including fire services, airport, traffic control systems, equipment, parks, streets, and sidewalks. The City also issued \$54,555,000 of general obligation refunding bonds. This advance refunding was undertaken to reduce total debt service payments over the next twenty years by \$8,822,571 and resulted in an economic gain of \$7,167,472.

The City's combination tax and revenue certificates of obligation bond rates are listed below:

	Moody's	Standard	
	Investors Service	and Poor's	
General obligation bonds	Aa2	AA	

Additional information on the City of Waco's long-term debt can be found in Note IV on pages 68 to 73 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The general fund budget (including transfers in) for fiscal year 2013 is based on a modest increase in revenues of 2.6% over last year's adopted budget, due mainly to the increase from ad valorem taxes primarily from new construction, a significant refunding bond issue this year and the City's debt reduction initiative started last year. No ad valorem tax rate adjustment is included for 2013.

Approximately 28% of general fund revenues come from sales taxes. Even though the City was expecting to end 2012 considerably over budget for sales tax revenue, sales taxes for 2013 were budgeted with only a 1.7% increase over the fiscal year 2011-2012 adopted budget. The City's preference is to be conservative in this area of the budget because this revenue is so volatile and is effected by so many factors that the City has no control over.

The 2013 budget includes a 3% salary increase for all employees and increases for certain civil service employees who are eligible for step pay increases. Departments were asked to evaluate their staffing needs as positions became vacant during the year, review positions that had been vacant for a considerable amount of time, and assess operations for efficiencies in the workforce. This budget reflects a net decrease of 3.87 full-time equivalent positions over last year's budget due to the outcome of those evaluations.

The TMRS benefit provisions of the City's plan were reviewed during the fiscal year 2012 budget process and as a result, the City Council approved a plan change to turn off annually repeating annuity increases and significantly reduced pension expense. Effective January 1, 2013 the City's full contribution rate will be 13.87% (includes a 50% ad hoc annuity increase). The City's budget for fiscal year 2013 includes approximately \$10 million for TMRS contributions and the City's funded ratio has increased to 86.6%.

Fiscal year 2013 does not include any rate changes in water and wastewater rates for any class of customers. Solid waste residential, commercial, roll-off and landfill rates will also remain the same for 2013.

REQUEST FOR INFORMATION

The financial report is designed to provide our citizens, customers, investors and creditors with a general overview of the City's finances. If you have questions about this report or need any additional information, contact Janice Andrews, Finance Director, at P. O. Box 2570, Waco, Texas 76702-2570, or call (254) 750-5758.

City of Waco, Texas Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Statement of Activities Year Ended September 30, 2012

Amounts reported for governmental activities in the Statement of Activities (pages 24 - 25) are different because:		
Net change in fund balances - total governmental funds (page 27)	\$	(9,041,227)
Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.		9,438,358
		7,430,330
The net effect of various miscellaneous transactions involving capital assets (i.e., sales, transfers, trade-ins, and donations) is to increase net assets.		6,296,270
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		255,341
The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of insurance costs, premiums, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities. This amount is the net effect of these differences in the treatment of long-term debt and related items.		3,574,186
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.		(435,739)
Internal service funds are used by management to charge the costs of certain services to individual funds. The net loss of activities of internal service funds is reported with governmental activities.	-	(1,952,986)
Change in net assets of governmental activities (pages 24 - 25)	\$	8,134,203

Notes to Financial Statements

September 30, 2012

I. <u>Summary of Significant Accounting Policies</u>

A. <u>Reporting Entity</u>

The City of Waco, Texas (the City) is a municipal corporation governed by an elected mayor and a five-member Council. The accompanying financial statements present the government and its component units, entities for which the government is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements (see note below for description) to emphasize that it is legally separate from the government.

Discretely presented component units - The component units' column in the government-wide financial statements includes the financial data of the City's two component units.

Central Waco Development Corporation: The Central Waco Development Corporation is an industrial development corporation authorized to act on behalf of the City to promote and develop commercial, industrial and manufacturing enterprises. The Corporation is prohibited from issuing bonded debt without the approval of the City Council.

Waco Health Facilities Development Corporation: Waco Health Facilities Development Corporation is a public, nonprofit corporation organized as a result of the Health Facilities Development Act. Specifically, the corporation was formed to issue obligations in order to finance all or part of the cost of one or more health facilities to assist the maintenance of public health. The Corporation is prohibited from issuing bonded debt without the approval of the City Council.

Complete financial statements for each of the individual component units may be obtained from the City's finance department offices.

B. Government-wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net assets and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenue, are reported separately from *business-like activities*, which rely to a significant extent on fees and charges for support. Likewise, the *primary government* is reported separately from certain legally separate *component units* for which the primary government is financially accountable.

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

B. Government-wide and Fund Financial Statements (continued)

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenue. *Direct expenses* are those that are clearly identifiable with a specific function or segment. Certain indirect costs have been included as part of the program expenses reported for the various functional activities. *Program revenue* includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment, and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenue are reported instead as *general revenue*.

Separate financial statements are provided for governmental funds, propriety funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus*, as are the proprietary fund financial statements. The government-wide, proprietary fund and fiduciary agency fund financial statements are reported using the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Government fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be *available* when it is collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenue to be available if collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation (continued)

Property taxes, franchise taxes, sales taxes, fines, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the City.

The government reports the following major governmental funds:

The *general fund* is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The government reports the following major proprietary funds:

The *water fund* accounts for the activities of the City's water services.

The *wastewater fund* accounts for the activities of the City's sewer services.

The *solid waste fund* accounts for the activities of the City's sanitation services.

Additionally, the government reports the following fund types:

Internal service funds account for insurance/risk management services, health insurance, fleet services, and engineering services provided to other departments or agencies of the government on a cost reimbursement basis.

Agency funds account for receipts and disbursements for the Urban Renewal Agency, the Heart of Texas Housing Finance Corporation, and Waco Public Improvement District No. 2.

Private-sector standards of accounting and financial reporting issued prior to December 1, 1989, generally are followed in both the government-wide and proprietary fund financial statements to the extent that those standards do not conflict with or contradict guidance of the Governmental Accounting Standards Board (GASB). Governments also have the option of following subsequent private-sector guidance for their business-like activities and enterprise funds subject to this same limitation. The City has elected not to follow subsequent private-sector guidance.

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

C. Measurement Focus, Basis of Accounting and Financial Statement Presentation (continued)

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are charges between the City's water and wastewater functions and various other functions of the government. Elimination of these charges would distort the direct costs and program revenue reported for the various functions concerned.

Amounts reported as program revenues include: (1) charges to customers or applicants for goods, services, or privileges provided, (2) operating grants and contributions, and (3) capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds and expenses.

D. Assets, Liabilities and Net Assets or Equity

Deposits and Investments

The City's cash and cash equivalents for purposes of reporting cash flows of proprietary funds consist of cash on hand, demand deposits, and deposits in the City's internal cash and investment pool.

State statutes authorize the City to invest in U. S. Treasury and agency securities, commercial paper, money market mutual funds, repurchase agreements, and government investment pools.

Investments for the City, as well as for its component units, are reported at fair value. The City invests in local government investment pools (LGIPs) that were created to function as money market mutual funds within the meaning of Rule 2a-7 of the Investment Company Act of 1940. Each of these LGIPs seeks to maintain a constant \$1.00 net asset value per share.

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

D. <u>Assets, Liabilities and Net Assets or Equity</u> (continued)

<u>Receivables and Payables</u>

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in applicable governmental funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All trade and property tax receivables are shown net of an allowance for uncollectibles. Trade accounts receivable in excess of 180 days are estimated to be uncollectible and comprise the trade accounts receivable allowance for uncollectibles. The property tax receivable allowance is equal to 6.43 percent of outstanding property taxes at September 30, 2012.

Property taxes are levied on October 1 and attach as an enforceable lien on property as of January 1. Statements are mailed on October 1, or as soon thereafter as possible, and are due upon receipt. All unpaid taxes become delinquent if not paid before February 1 of the following year.

Inventories

All inventories are valued using the average cost method. Inventories of governmental funds are recorded as expenditures when consumed rather than when purchased.

Restricted Assets

Certain proceeds of the enterprise fund bonds and certain resources set aside for their repayment, are classified as restricted assets on the balance sheet because their use is limited by applicable bond covenants.

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

Capital Assets

Capital assets, which include property, plant, equipment, infrastructure (e.g., roads, bridges, and similar items), and water rights are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. The City defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The total interest expense incurred during the current fiscal year was \$9,797,172 for business-type activities. Of this amount, \$295,123 were included as part of the cost of capital assets under construction in connection with water and wastewater fund construction projects.

Property, plant and equipment is depreciated using the straight-line method over the following useful lives:

Assets	Years
Landfill improvements	3 – 5
Buildings	20 - 50
Water rights	35
Improvements	5 - 50
Equipment	5 - 20
Infrastructure	35 - 125

Compensated Absences

It is the City's policy to permit employees to accumulate earned but unused vacation and sick pay benefits. All vacation pay is accrued when incurred in the governmentwide and proprietary fund financial statements. For governmental activities and proprietary funds, a liability is reported for a portion of accumulating sick leave

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

Compensated Absences (continued)

when it is probable that the government will make termination payments. A liability for compensated absences is reported in governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

Long-term Obligations

In the government-wide financial statements and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets. Bond premiums, as well as issuance costs, are deferred and amortized over the life of the bonds using the interest method. Bonds payable are reported net of the applicable bond premium. Bond issuance costs are reported as deferred charges and amortized over the term of the related debt.

In the fund financial statements, governmental fund types recognize bond premiums, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Equity

In the fund financial statements, governmental funds fund balances classified as restricted are balances with constraints placed on the use of resources by creditors, grantors, contributors, or laws or regulations of other governments. Fund balances classified as committed can only be used for specific purposes pursuant to constraints imposed by the City Council through a resolution. Assigned fund balances are constrained by an intent to be used for specific purposes but are neither restricted nor committed. Assignments are also approved by the City Council through a resolution.

For the classification of governmental fund balances, the City considers the order of expenditures to be made from the most restrictive first when more than one classification is available. The order of spending available resources is as follows: restricted, committed, assigned, and unassigned.

The City Council has adopted Financial Management Policy Statements that include the policy to strive to maintain the general fund unassigned fund balance at 18% of

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

Fund Equity (continued)

budgeted revenues. General fund unassigned fund balance at September 30, 2012 was 22.21% of fiscal year 2013 budgeted revenues.

The following detail of fund balances by classification is shown for major and nonmajor governmental funds:

	General		Other

Notes to Financial Statements (Continued)

I. <u>Summary of Significant Accounting Policies</u> (continued)

D. Assets, Liabilities and Net Assets or Equity (continued)

<u>Net Assets</u>

In the government-wide and proprietary fund financial statements, net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consist of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds.

Net assets are reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the City or through external restrictions imposed by creditors, grantors, laws or regulations of other governments. When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

II. Reconciliation of Government-wide and Fund Financial Statements

A. Explanation of Certain Differences Between the Governmental <u>Fund Balance Sheet and the Government-wide Statement of Net Assets</u>

The governmental fund balance sheet includes a reconciliation between *fund balance* – *total governmental funds* and *net assets* – *governmental activities* as reported in the government-wide statement of net assets. One element of that reconciliation explains, "long-term liabilities are not due and payable in the current period and, therefore, are not reported in the funds." The details of this \$122,388,595 difference are as follows:

Capital lease	\$	109,814
Serial bonds and certificates of obligation		94,763,097
Less: deferred charge on refunding (to be amortized		
as interest expense)		(763,665)
Less: deferred charge for issuance costs (to be		
amortized over life of debt)		(787,497)
Plus: issuance premium		1,471,251
Accrued interest payable		709,932
Compensated absences		16,227,668
Net pension obligation		9,544,515
Refundable contracts		80,007
Contracts payable		830,000
Net other post-employment benefit obligation	-	203,473
Net adjustment to reduce fund balance - total governmental		
funds to arrive at net assets - governmental activities	\$	122,388,595

Notes to Financial Statements (Continued)

II. Reconciliation of Government-wide and Fund Financial Statements (continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities

The governmental fund statement of revenue, expenditures and changes in fund balances includes a reconciliation between *net changes in fund balances – total governmental fund* and *changes in net assets of governmental activities* as reported in the government-wide statement of activities. One element of that reconciliation explains, "Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense." The details of this \$9,438,358 difference are as follows:

Capital outlay	\$	23,025,544
Depreciation expense	_	(13,587,186)
Net adjustment to increase net changes in fund	_	
balances - total governmental funds to arrive at		
changes in net assets of governmental activities	\$	9,438,358

Another element of that reconciliation states, "The net effect of various miscellaneous transactions involving capital assets (i.e., sales, trade-ins, transfers, and donations) is to increase net assets." The details of this \$6,296,270 difference are as follows:

Donations and transfers of capital assets increase net		
assets in the statement of activities, but do not appear		
in the governmental funds because they are not financial		
resources.		6,296,270
Net adjustment to increase net changes in fund		
balances - total governmental funds to arrive at		
changes in net assets of governmental activities	\$	6,296,270

Another element of that reconciliation states, "Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds." The details of this \$255,341 difference are as follows:

Notes to Financial Statements (Continued)

II. Reconciliation of Government-wide and Fund Financial Statements (continued)

B. Explanation of Certain Differences Between the Governmental Fund Statement of Revenues, Expenditures and Changes in Fund Balances and the Government-wide Statement of Activities (continued)

Loan programs	\$ (602,991)
Court fines	(144,416)
Property taxes	120,298
Intergovernmental	882,450
Net adjustment to increase <i>net changes in fund balances</i> - total governmental funds to arrive at changes in net assets of governmental activities	\$ 255,341

Another element of that reconciliation states, "The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net assets. Also, governmental funds report the effect of issuance costs, premiums, discounts, and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities." The details of this \$3,574,186 difference are as follows:

Capital lease	\$	(145,351)
Debt issued or incurred:		
Issuance of general obligation and refunding debt		(9,945,000)
Plus: premium on issuance		(803,289)
Less: deferred charge on issuance costs		98,061
Principal repayments:		
General obligation debt		7,090,342
Capital lease		35,537
Payment to escrow agent for refunding	_	7,243,886
Net adjustment to increase net changes in fund		
balances- total governmental funds to arrive at		
changes in net assets of governmental activities	\$	3,574,186

Another element of that reconciliation states, "Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds." The details of this \$(435,739) difference are as follows:

Amortization of issuance costs		(106,255)
Amortization of bond premiums		218,841
Net adjustment to decrease net changes in fund	_	
balances - total governmental funds to arrive at		
changes in net assets of governmental activities	\$	(435,739)

III. <u>Stewardship, Compliance and Accountability</u>

A. <u>Budgetary Information</u>

Annual budgets are adopted on a basis consistent with generally accepted accounting principles. Annual, appropriated budgets are adopted for the general fund, health fund and general obligation debt fund. All annual appropriations lapse at fiscal yearend. Project-length financial plans are adopted for all capital projects funds and the grant fund.

Prior to August 1, the City Manager submits to the City Council a proposed operating budget for the fiscal year commencing the following October 1. The operating budget includes proposed expenditures and the means of financing them. A public hearing is conducted to obtain taxpayer comments. Prior to October 1, the budget is legally enacted through passage of a resolution.

Expenditures may not legally exceed appropriations at the fund level for each legally adopted annual budget. The City Council made supplemental budgetary appropriation changes during the fiscal year. In addition, transfer of appropriations between funds requires the approval of the City Council. The reported budgetary data has been revised for these amendments legally authorized during the year.

Encumbrance accounting is employed in governmental funds. Encumbrances (e.g. purchase orders, contracts) outstanding at year-end do not constitute expenditures or liabilities because the commitments will be re-appropriated and honored during the subsequent year.

Notes to Financial Statements (Continued)

III. Stewardship, Compliance and Accountability (continued)

A. <u>Budgetary Information</u> (continued)

Outstanding encumbrances for governmental funds as of September 30, 2012 are \$796,233 for the general fund and \$9,651,702 for other nonmajor funds.

B. <u>Deficit Fund Equity</u>

Deficit net assets in individual nonmajor funds at September 30, 2012 consist of the following:

	Invested in Capital Assets,		
	Net of	Unrestricted	Total
	Related Debt	Net Assets	Net Assets
Nonmajor Enterprise Fund: Cottonwood Creek Golf Course	\$ 1,142,853	(1,273,121)	(130,268)

The Cottonwood Creek Golf Course Fund is used to account for the City's golf course facility. Operations continue to be reviewed with emphasis on improving pro shop and concession operations. Total net assets have improved as compared to the prior year deficit net asset balance of \$(678,940).

IV. Detail Notes on All Funds

A. <u>Deposits and Investments</u>

As of September 30, 2012, the City had the following investments:

			Weighted
		Percent	Average
	Fair	of	Maturity
Investment	 Value	Portfolio	(in years)
Texas Local Government Investment Pool (TexPool)	\$ 3,039,352	7.47%	-
Texas Short-Term Asset Reserve (TexSTAR)	876,447	2.15%	-
Total local government investment pools	3,915,799	9.62%	-
U. S. Federal agency securities	36,776,180	90.38%	1.92
Total investments	\$ 40,691,979	100.00%	1.73

Notes to Financial Statements (Continued)

IV. Detail Notes on All Funds (continued)

A. <u>Deposits and Investments</u> (continued)

Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. In accordance with its investment policy, the City manages its exposure to declines in fair value by limiting the maturities of its investments as follows: maturities of U. S. Treasury obligations, U. S. Federal agency securities and repurchase agreements cannot exceed three years. Further, the weighted average maturity of the City's investment portfolio shall at no time exceed one year.

Credit Risk

For an investment, credit risk is the risk that an investment issuer or other counterparty to an investment will not fulfill obligations. Texas Government Code Chapter 2256, Public Funds Investment Act, restricts the types of investments in which the City may invest. The City's investment policy addresses credit quality by further restricting authorized investments to the following:

- U. S. Treasury obligations
- Other obligations of the U. S. Government guaranteed by the Federal Deposit Insurance Corporation (FDIC) or by the explicit full faith and credit of the United States.
- U. S. Federal agency securities
- Repurchase agreements and flexible repurchase agreements, collateralized by U. S. Treasury obligations or U. S. federal agency securities, or by pass-through mortgage-backed securities issued by the U. S. federal agencies.
- Money market mutual funds rated not less than AAAm by Standard & Poor's, Aaa by Moody's or AAA/V1+ by Fitch
- Local Government investment pools rated not less than AAAm by Standard & Poor's, Aaa by Moody's or AAA/V1+ by Fitch

The City's investments in TexPool and TexSTAR are rated AAAm by Standard & Poor's; and U. S. Federal agency securities are rated AAA by Fitch, Aaa by Moody's, and AA+ by Standard and Poor's.

Notes to Financial Statements (Continued)

IV. Detail Notes on All Funds (continued)

A. <u>Deposits and Investments</u> (continued)

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributable to the magnitude of a government's investments in the securities of a single issuer. The City's investment policy includes an investment objective of seeking diversification to avoid unreasonable risk. More than 5% of the City's investments at September 30, 2012 were in securities of the following issuers:

Dercent of

		reicent of
U. S. Agency Issuer	 Fair Value	Portfolio
Federal Home Loan Bank	\$ 5,003,300	12.30%
Federal Home Loan Mortgage Corporation	13,182,882	32.40%
Federal National Mortgage Association	17,017,800	41.82%

Custodial Credit Risk

The custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover deposits or will not be able to recover collateral securities that are in the possession of an outside party. City policy requires all deposits to be fully secured in accordance with the Texas Government Code, Chapter 2257, by either surety bonds, letters of credit of the United States or its agencies and instrumentalities, or by eligible securities held by an independent third-party custodian.

For an investment, custodial credit risk is the risk that in the event of the failure of the counter-party, the City would not be able to recover the value of its investment or collateralized securities that are in the possession of an outside third party. The City's investment policy requires that the purchase of investment securities be settled on a delivery basis and that ownership of all securities be perfected in the name of the City.

Reconciliation of Cash and Investments

Carrying amount of deposits and		
cash on hand	\$	133,639,037

Total	\$	174,331,016

The City issues certificates of obligation to fund capital projects for governmental and business-type activities. Interest earnings on the unspent proceeds of all certificates of obligation are accounted for in the capital projects fund.

Local Government Investment Pools

TexPool. The Comptroller of Public Accounts (the Comptroller) is the sole officer, director and shareholder of the Texas Treasury Safekeeping Trust Company (the Trust Company) which is authorized to operate TexPool. Federated Investors, Inc. provides asset management services to TexPool. Additionally, the Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool.

The advisory board members review the investment policy and management fee structure. TexPool uses amortized cost rather than fair value to report net assets to compute share prices.

TexSTAR. TexSTAR is a Texas public funds investment pool that is co-administered by J.P. Morgan Fleming Asset Management and First Southwest Asset Management, Inc. TexSTAR is managed by a five-member governing board comprised of three representatives of eligible governmental entities and one member designated by each of the co-administrators. The pool uses amortized cost rather than the fair value to report net assets to compute share prices.

B. <u>Receivables</u>

Receivables as of year-end for the City's individual major funds and nonmajor, internal service, and fiduciary funds in the aggregate, including the applicable allowances for uncollectible accounts, are as follows:

	General	Water	Wastewater	Solid Waste	Nonmajor and Other Funds	Total
Receivables:						
Taxes \$	7,146,120	-	-	-	775,026	7,921,146
Accounts	14,122,784	7,218,737	3,757,816	3,526,053	632,687	29,258,077
Special assessments	-	-	-	-	30,359	30,359
Intergovernmental	883,592	-	-	-	5,039,587	5,923,179
Notes	2,000		640,182	-	7,119,365	7,761,547
Gross receivables	22,154,496	7,218,737	4,397,998	3,526,053	13,597,024	50,894,308
Less: allowance for						
uncollectibles	10,586,228	1,631,471	1,064,937	1,371,409	4,396,291	19,050,336
Net total receivables \$	11,568,268	5,587,266	3,333,061	2,154,644	9,200,733	31,843,972

In the general fund, \$882,450 of the intergovernmental receivable reported is not expected to be collected until fiscal year 2014.

Revenues of the water, wastewater, and solid waste funds are reported net of uncollectible amounts. Total uncollectible amounts related to revenues of the current period are as follows:

Uncollectibles related to water sales	\$	60,411
Uncollectibles related to wastewater charges		27,844
Uncollectibles related to solid waste charges	_	19,771
Total uncollectibles of the current fiscal year	\$	108,026

Governmental funds report deferred revenue in connection with receivables for revenue that is not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred revenue and unearned revenue reported in the governmental funds were as follows:

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

D. Interfund Receivables, Payables and Transfers

The composition of interfund balances as of September 30, 2012 is as follows:

Due to/from other funds

Receivable Fund	Payable Fund		Amount
Nonmajor business-type	Nonmajor governmental	\$	7,738
General	Nonmajor governmental		1,001,378
General	Nonmajor business-type		2,438,310
Nonmajor governmental	Nonmajor governmental		6,177,468
Nonmajor governmental	Water		243,129
Nonmajor governmental	Internal service		702,577
Nonmajor governmental	General	-	974,471
		\$	11,545,071

All balances resulted from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Advances to/from other funds

Receivable Fund	Payable Fund		Amount
General	Nonmajor business-type	\$	48,388
Water	Nonmajor business-type		525,336
Nonmajor governmental	Nonmajor business-type	_	168,368
		\$	742,092

A balance of \$48,388 due to the general fund from the airport fund, a nonmajor business-type fund, resulted from a loan for capital improvements. All remaining balances resulted from loans to Cottonwood Creek Golf Course fund made for operating and capital improvements since the City took over management responsibilities. Amounts are not expected to be paid within the next fiscal year.

Notes to Financial Statements (Continued)

Total transfers	\$	4,161,057	10,854,550	4,342,367	19,357,974	

Transfers are used to (1) move revenues from the fund responsible for collecting them to the fund responsible for expending them as required by statute or budget, (2) move receipts restricted to debt service from the funds collecting the receipts to the debt service fund as debt service payments become due, and (3) move unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations.

In the year ended September 30, 2012, the City made payments from various funds to the general fund in lieu of taxes. The City reported these payments as transfers. Transfers were made from the following funds in the following amounts.

Water	\$ 3,061,151
Wastewater	759,950
Solid waste	289,956

E. <u>Leases</u>

Operating leases

The government leases building and office facilities and other equipment under noncancelable operating leases. Total costs for such leases were \$656,526 for the year ended September 30, 2012. The future minimum lease payments for these leases are as follows:

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

E. Leases (continued)

Year Ending September 30,	
2013	\$ 542,906
2014	357,285
2015	149,998
Total	\$ 1,050,189

Capital Leases

The government has acquired certain capital assets for governmental activities through the use of lease purchase agreements. These lease agreements qualify as capital leases for accounting purposes and, therefore, have been recorded at the present value of their future minimum lease payments as of the inception date.

The assets acquired through capital leases are as follows:

	 Cost	Accumulated Depreciation	Net Book Value
Governmental activities: Computer equipment	\$ 145,351	24,225	121,126
Total	\$ 145,351	24,225	121,126

The future minimum lease obligations and the net present value of these minimum lease payments as of September 30, 2012, are as follows:

Year Ending September 30,	Governmer Activitie:	
September 50,		Activities
2013	\$	49,938
2014		49,938
2015		12,485
Total minimum lease payments		112,361
Less: amount representing interest	_	2,547
Present value of minimum lease payments	\$	109,814

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

F. Long-term Debt

General obligation bonds

The City issues general obligation bonds to provide funds for the acquisition and construction of major capital facilities. General obligation bonds have been issued for both governmental and business-type activities. These bonds are reported in the proprietary funds if they are expected to be repaid from proprietary fund revenue. The original amount of general obligation bonds issued in prior years was \$318,590,000.

General obligation bonds are direct obligations and pledge the full faith and credit of the government. These bonds generally are issued as twenty-year serial bonds with equal amounts of principal maturing each year. General obligation bonds currently outstanding are as follows:

Purpose	Interest Rates		Amount
Governmental activities	2.00% - 6.00%	\$	80,255,000
Governmental activities - refunding	2.00% - 5.00%	Ŷ	14,508,097
Business-type activities	2.00% - 6.00%		133,475,000
Business-type activities - refunding	2.00% - 5.00%		71,111,903
		\$	299,350,000

Annual debt service requirements to maturity for general obligation bonds are as follows:

Year Ending		Governmenta	l Activities	Business-type	e Activities
September 30,	_	Principal	Interest	Principal	Interest

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

F. <u>Long-term Debt</u> (continued)

Advance Refunding

The government issued \$54,555,000 of general obligation refunding bonds to provide resources to purchase U. S. state and local government services securities that were placed in an irrevocable trust for the purpose of generating resources for all future debt service payments of \$58,130,000 of general obligation bonds. As a result, the refunded bonds are considered to be defeased and the liability has been removed from the governmental and business-type activities columns of the statement of net assets. The reacquisition price exceeded the net carrying amount of the old debt by \$3,266,376. This amount is being netted against the new debt and amortized over the remaining life of the refunded debt. This advance refunding was undertaken to reduce total debt service payments over the next twenty years by \$8,822,571 and resulted in an economic gain of \$7,167,472.

Prior year defeasance of bonds

In the current year and in prior years, the City defeased certain bonds by placing the proceeds of new bonds in an irrevocable trust to provide future debt service payments on the old bonds. Accordingly, the trust account assets and liabilities for the defeased bonds are not included in the City's financial statements. On September 30, 2012, \$46,325,000 of bonds considered defeased are still outstanding.

State participation loan

The City has borrowed \$15,000,000 with interest rates from 5.8% to 5.9% under the Texas Water Development Board state participation loan program. The proceeds from this loan were being used to increase the conservation storage space in Lake Waco in order to increase the dependable water supply yield of the lake.

Annual debt service requirements to maturity for the state participation loan are as follows:

Year Ending	Business-7	Type Activities
September 30,	Principal	Interest
2013	\$ -	877,605
2014	- -	877,605

Notes to Financial Statements (Continued)

IV. <u>Detailed Notes on All Funds</u> (continued)

F. <u>*Long-term Debt*</u> (continued)

Other long-term debt information

Proceeds from general obligation bonds are subject to arbitrage rebate regulations. Estimated rebatable arbitrage has been recorded as a reduction to interest on investments.

During 1985, the City entered into a development agreement which provided that the City repay \$830,000 for public improvements at an interest rate not to exceed 8%. Repayment of principal and accrual of interest will not begin until revenue is received from the area designated in the development agreement. Annual requirements will be based on the revenue generated from future developments, which cannot be reasonably estimated at September 30, 2012.

There is no specific maximum debt limit established by law for the City; therefore, the limit is governed by the City's ability to levy and collect taxes. The City's maximum legal rate is \$1.85 per \$100 valuation; the current tax rate is \$0.786232 per \$100 valuation.

The various bond obligations contain certain financial limitations and restrictions. The ordinances authorizing the issuance of general obligation bonds created an interest and sinking fund (general debt service fund). The ordinances require the City to ascertain a rate and amount of tax which will be sufficient to pay interest as it comes due and provide a reserve fund which is adequate to meet principal as it matures. The City is in compliance with all such significant financial restrictions.

Refundable contracts

The City maintains a policy of refunding to subdivision developers certain costs for the construction of water and wastewater improvements and streets and drainage facilities, applicable to single family housing developments. The policy was created to encourage the construction of single family residences within the corporate limits of the City. Amounts under contract which have not yet been refunded of \$1,898,379 have been recorded as a liability in the accompanying statement of net assets.

Changes in long-term liabilities

Long-term liability activity (shown in thousands of dollars) for the year ended September 30, 2012 was as follows:

Notes to Financial Statements (Continued)

IV. <u>Detailed Notes on All Funds</u> (continued)

F. <u>Long-term Debt</u> (continued)

Changes in long-term liabilities (continued)

Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for them are included as part of the above totals for governmental activities. At year-end, \$386,663, \$368,509, and \$3,063,074 of internal service funds compensated absences, net pension obligations and estimated claims and judgments, respectively, are included in the above governmental amounts. Also, for the governmental activities, compensated absences, net pension obligation, other post-employment benefits, and capital leases are generally liquidated by the general fund. Refundable contracts are liquidated by the street and drainage refundable contracts debt service fund.

G. <u>Restricted Assets</u>

The balances of the restricted asset accounts in the enterprise funds are as follows:

Customer deposits	\$	2,304,592
Bond construction account		25,677,577
Capital grants and contributions		73,961
	-	
Total restricted assets	\$	28,056,130

H. <u>Risk Management</u>

The City is exposed to various risks of losses related to torts; theft of, damage to, and destruction of assets; errors and omissions; and natural disasters for which the government carries commercial insurance. The City has established the insurance fund and health insurance fund (internal services funds) to account for and finance its risk management activities. All funds participate in these programs and make payments to these funds based on actuarial estimates of the amounts needed to pay prior and current-year claims and to establish reserves for catastrophe losses. The reserves for catastrophic losses were approximately \$7,000,000 at September 30, 2012.

Liabilities of the funds are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount

Notes to Financial Statements (Continued)

IV. <u>Detailed Notes on All Funds</u> (continued)

H. <u>Risk Management</u> (continued)

for claims that have been incurred but not reported (IBNRs). The result of the process to estimate the claims liability is not an exact amount as it depends on many complex factors, such as inflation, federal and state mandated programs, changes in legal doctrines, damage awards (including frequency and amount of payouts), and economic and social trends. Accordingly, claims are reevaluated periodically to consider the effects of such factors.

The estimate of the claims liability also includes amounts for incremental claim adjustment expenses related to specific claims and other claim adjustment expenses regardless of whether allocated to specific claims. Estimated recoveries, for example from salvage or subrogation, are another component of the claims liability estimate.

The insurance fund provides coverage for up to a maximum of \$400,000 for each non-civil service workers' compensation claim and \$500,000 for each civil service workers' compensation claim. The City purchases commercial insurance for workers' compensation claims in excess of coverage provided by the fund. For general liability claims prior to fiscal year 2002, the insurance fund provided coverage for up to \$250,000 for each individual and \$500,000 aggregate for general liability claims and up to \$100,000 for each property damage claim. Beginning with fiscal year 2002, the insurance fund provides commercial insurance for each general liability or property damage claim. The City purchases commercial insurance for The commercial liability insurance limits are claims in excess of \$50,000. \$1,000,000 per occurrence for general liability with a \$2,000,000 annual aggregate, except for law enforcement liability for which the limits are \$5,000,000 per occurrence and \$10,000,000 annual aggregate. The commercial insurance limits for the City's property coverages are: \$10,000,000 aggregate for automobile catastrophe, \$367,688,616 aggregate for real and personal property, \$12,427,050 aggregate for mobile equipment and \$5,000,000 per accident for boiler and machinery.

Effective January 1, 2006, the City began to self-insure for health insurance claims. Beginning October 1, 2011, the lifetime maximum per participant was removed, and there is now an annual maximum of \$1,250,000 per participant. Commercial insurance is purchased for total annual claims per individual in excess of \$150,000 up to \$1,850,000 and for the first \$2,000,000 of annual aggregate claims in excess of 125% of expected claims.

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

H. <u>Risk Management</u> (continued)

There have been no claim settlements in excess of the insurance coverages that have been procured in 2012, 2011, or 2010. Changes in the amounts of estimated unpaid liability claims during the past two years are as follows (shown in thousands of dollars):

	2012	2011
Unpaid claims, beginning of fiscal year Incurred claims (including IBNRs)	\$ 3,607 12,285	4,737 11,483
Claim payments	(12,829)	(12,613)
Unpaid claims, end of fiscal year	\$ 3,063	3,607

I. <u>Contingent Liabilities</u>

Amounts received or receivable from grant agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures that may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

There are currently several claims and lawsuits pending against the City. It is the opinion of the City Attorney and management that there is not pending litigation against the City that, if decided against the City, would have a material adverse effect upon the operations of the City or that would exceed the contingency amounts set aside for such purpose.

J. <u>Commitments</u>

Water storage rights in Lake Waco were acquired by contract with Brazos River Authority in 1965. Total consideration for the water storage rights over the fifty-year term is \$9,416,500 with payments of \$188,330 due annually. Such payments are reported as operating deductions of the water fund in the year the payments are made.

Additionally, the City Council has approved \$2,434,147 to be refunded to subdivision developers for certain costs for the construction of water and wastewater improvements once applicable contract requirements are met.

Notes to Financial Statements (Continued)

IV. <u>Detailed Notes on All Funds</u> (continued)

J. <u>Commitments</u> (continued)

In August 2012, the City Council approved an amendment to the project/financing plan for reinvestment zone number one to provide partial funding via a grant of up to \$35,060,340 to assist with infrastructure improvements for the new Baylor Community Events/Stadium Complex. This annual grant funding is limited to tax increment revenue collected each year from the reinvestment zone number one over a ten-year period as follows:

2013	\$ 8,006,034
2014	3,006,034
2015	3,006,034
2016	3,006,034
2017	3,006,034
2018	3,006,034
2019	3,006,034
2020	3,006,034
2021	3,006,034
2022	3,006,034

K. <u>Other Post-employment Benefits</u>

Plan Description - The City administers a single-employer defined benefit life insurance plan. The plan provides \$2,500 of life insurance to each qualified retiree. An optional \$5,000 in life insurance is available at the retiree's expense. According to the City's personnel policy, retirees who have retired under the Texas Municipal Retirement System with a minimum of twenty years of service are eligible for postretirement life insurance benefits.

Actuarial methods and assumptions

The Projected Unit Credit actuarial cost method is used to calculate the GASB annual required contribution (ARC) for the City's retiree life insurance plan. Using the plan benefits, the present life insurance premiums and a set of actuarial assumptions, the anticipated future payments are projected. The projected unit credit method then provides for a systematic recognition of the cost of these anticipated payments. The yearly ARC is computed to cover the cost of benefits being earned by covered members as well as to amortize a portion of the unfunded accrued liability.

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

K. Other Post-employment Benefits (continued)

Projections of life insurance benefits are based on the plan as understood by the City and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the City and the City's employees to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

Actuarial Methods and Assumptions

Type of benefit	Life insurance only
Inflation rate	3.0% per annum
Investment rate of return	4.50%, net of expenses
Actuarial cost method	Projected Unit Credit Cost Method
Amortization method	Level as a percentage of employee payroll
Amortization period	30-year open amortization
Payroll growth	3.0% per annum

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status and the annual required contributions of the City's retiree life insurance plan are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multi-year trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits.

The City's annual other post-employment benefits (OPEB) cost is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameter of GASB Statement No. 45. The ARC represents a level of accrual that is projected to recognize the normal cost each year and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The City's annual OPEB cost for the current year is as follows:

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

K. Other Post-employment Benefits (continued)

Reconciliation of Net Other Post-employment Benefit Obligation

	_	2012	2011	2010

at December 31, 2011. As of the most recent valuation, the ratio of the unfunded actuarial accrued liability to annual covered payroll is 2.4%

L. <u>Pension Plans – Primary Government</u>

Deferred compensation plan

The City offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all City employees, permits them to defer a portion of their salary until future years. Participation in the plan is optional. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

Defined benefit plan – Texas Municipal Retirement System

Plan Description – The City provides pension benefits for all of its eligible employees through a non-traditional, joint contributory, hybrid defined benefit plan in the state-wide Texas Municipal Retirement System (TMRS), an agent multiple employer public employee retirement system. The plan provisions that have been adopted by the City are within the options available in the governing state statutes of TMRS.

TMRS issues a publicly available comprehensive annual financial report that includes financial statements and required supplementary information (RSI) for TMRS; the report also provides detailed explanations of the contributions, benefits and actuarial methods and assumptions used by the System. This report may be obtained from the TMRS website at www.TMRS.com.

The plan provisions are adopted by the governing body of the City, within the options available in the state statutes governing TMRS. Plan provisions for the City were as follows:

Employee deposit rate	7%
Matching ratio (City to employee)	2 to 1
Years required for vesting	5 years
Updated service credit	100% repeating, transfers
Annuity increase (to retirees)	70% of CPI (ad hoc)

Members can retire at certain ages, based on the years of service with the City. The service retirement eligibilities for the City (expressed as years of service/age) are:

> 5 years/age 60 20 years/any age

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

L. <u>*Pension Plans – Primary Government*</u> (continued)

Contributions - Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Projected Unit Credit actuarial cost method. This rate consists of the normal cost contribution rate and the prior service cost contribution rate, which is calculated to be a level percent of payroll from year to year. The normal cost contribution rate finances the portion of an active member's projected benefit allocated annually; the prior service contribution rate amortizes the unfunded (overfunded) actuarial liability (asset) over the applicable period for that city. Both the normal cost and prior service contribution rates include recognition of the projected impact of annually repeating benefits, such as updated service credits and annuity increases.

The City contributes to the TMRS Plan at an actuarially determined rate. Both the employees and the City make contributions monthly. Since the City needs to know its contribution rate in advance for budgetary purposes, there is a one-year delay between the actuarial valuation that serves as the basis for the rate and the calendar year when the rate goes into effect.

Beginning with December 31, 2007 valuation, TMRS utilizes the Projected Unit Credit actuarial cost method which facilitates advance funding for future updated service credits and annuity increases. This method generally results in higher required contributions and lower funded ratios. To assist in this transition to higher rates, TMRS approved an optional eight-year phase-in period beginning in 2009, which allows the City the opportunity to increase their contributions gradually (approximately 12.5% each year) to their required contribution rate. The City Council approved a plan change to turn off annually repeating annuity increases for retirees effective January 1, 2012. This plan change reduced the City's contribution rate and eliminated the phase-in rate.

		2012	2011	2010
Annual Required Contribution (ARC)	\$	11,186,956	16,443,862	16,643,571

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

L. <u>*Pension Plans – Primary Government*</u> (continued)

The funded status as of December 31, 2011 and the preceding two years is presented as follows:

Actuarial Valuation Date	Actuarial Value of Assets	Actuarial Accrued Liability (AAL)	Funded Ratio	Unfunded AAL (UAAL)	Covered Payroll	UAAL as a Percentage of Covered Payroll
12-31-2009	163,485,757	298,082,660	54.8%	134,596,903	66,925,539	201.1%
12-31-2010	286,038,376	342,006,589	83.6%	55,968,213	67,622,089	82.8%
12-31-2011	307,003,573	354,381,011	86.6%	47,377,438	67,309,969	70.4%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future.

Actuarial calculations are based on the benefits provided under the terms of the substantive plan in effect at the time of each valuation, and reflect a long-term perspective. Consistent with that perspective, actuarial methods and assumptions used include techniques that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets.

M. Fire and Police One-half Pay Pension

The City funded on a pay-as-you-go basis and administered a one-half singleemployer defined benefit pension plan for employees who were not eligible to participate when TMRS was adopted. Any policeman, fireman or fire alarm operator employed by the City prior to September 12, 1950, and their named dependents are entitled to benefits under this plan. Employees were able to retire after 25 years of service. The City Council passed an ordinance for pension pay equal to one-half of the salary for each employee at the time of retirement.

There are six retired firemen and policemen under this plan with no eligible active employees.

An actuarial valuation has not been performed on this plan due to its small relative size. The estimated unfunded liability based on the present value of future benefits with a 7.5 percent interest rate assumption is \$180,985 at September 30, 2012.

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

M. Fire and Police One-half Pay Pension (continued)

These benefits are budgeted and recorded in the general fund as expenditures in the year paid. Total costs of these paid benefits for the three years ended September 30, are as follows:

2012	\$ 48,564
2011	52,164
2010	70,164

N. Solid Waste Landfill Closure and Post-closure Care Cost

State and federal laws and regulations require that the City place a final cover on its landfill when closed and perform certain maintenance and monitoring functions at the landfill site for thirty years after closure. In addition to operating expenses related to current activities of the landfill, an expense provision and related liability are being recognized based on the future closure and post-closure care costs that will be incurred near or after the date the landfill no longer accepts waste. The recognition of these landfill closure and post-closure care costs is based on the amount of usage of the landfill to date. The estimated liability for landfill closure and post-closure care costs included in accrued liabilities is \$4,052,246 as of September 30, 2012, which is based on 64.4% usage (filled) of the landfill. It is estimated that an additional \$2,236,661 will be recognized as closure and postclosure care expenses between the date of the balance sheet and the date the landfill is expected to be filled to capacity (2023). The estimated total current cost of the landfill closure and post-closure care (\$6,288,907) is based on the amount that would be paid if all equipment, facilities, and services required to close, monitor and maintain the landfill were acquired as of September 30, 2012. However, the actual cost of closure and post-closure care may change due to inflation, changes in technology, or changes in landfill laws and regulations.

O. <u>Conduit Debt Obligations</u>

From time to time, Central Waco Development Corporation and Waco Health Facilities Development Corporation have issued industrial revenue bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial, commercial and health facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage debt. Upon repayment of the bonds, ownership of the facilities transfers to the private-sector entity served by the bond issue. Neither Central Waco Development Corporation, Waco Health Facilities Development Corporation, the City, nor any political subdivision thereof is obligated

Notes to Financial Statements (Continued)

IV. <u>Detailed Notes on All Funds</u> (continued)

O. <u>Conduit Debt Obligations</u> (continued)

in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the financial statements of Central Waco Development Corporation, Waco Health Facilities Development Corporation, or the City.

As of September 30, 2012, there are nineseries of industrial revenue bonds outstanding. The aggregate principal amount payable for the seven series issued after July 1, 1995 was \$283,285,000. The aggregate principal amount payable for the two series issued prior to July 1, 1995 could not be readily determined; however, their original issue amounts totaled \$4,850,000.

P. <u>Waco Public Improvement District #2</u>

Waco Public Improvement District #2 transactions are recorded in an agency fund as the City acts as an agent for the property owner in collecting assessments and forwarding the collections to the bondholders. However, the City is not obligated in any manner for repayment of these special assessments. As of September 30, 2012, such special assessment debt outstanding totaled \$1,464,000.

Q. Undivided Interest in Waco Metropolitan Area Regional Sewer System

During 2004, the City entered into an agreement with four other participating cities to acquire the facilities and operations of the Waco Metropolitan Area Regional Sewer System (the System) from Brazos River Authority (the Authority). Prior to the acquisition, the cities were "tenants in common" of the System owned by the Authority, and funded the System through payments to the Authority based on the amount of wastewater treated.

The City's initial purchase included an 84.47% undivided interest in the System; however, the City subsequently sold portions of its undivided interest to other cities leaving it with a 79.234% undivided interest in the System. The City's undivided interest in the System as of September 30, 2012 was 75.272% as a result of certain capacity expansion improvements completed during 2012.

The City assisted four of the participating cities in financing their initial investments. During 2004, the City's wastewater fund advanced \$1,849,058 to the four participating cities at an interest rate of 3.65% to be repaid in annual installments through February 2024. As of September 30, 2012, \$640,182 of principal remained outstanding on these loans.

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

Q. Undivided Interest in Waco <u>Metropolitan Area Regional Sewer System</u> (continued)

Under the interlocal agreement for the System, a board was created consisting of the city managers from each of the seven participating cities. The operation and administration of the System is subject to joint control by the cities through the board; however, a separate legal entity was not created. The agreement allows the cities to pool resources and share the costs, risks, and rewards of providing services. Further, each city retains an ongoing financial interest and ongoing financial responsibility in the operations of the System. The City has reported its share of assets, liabilities, equity, revenues and expenses that are associated with this joint activity in its wastewater fund as follows:

Current assets	\$	5,708,217
Capital assets		34,207,190
Current liabilities		(682,185)
Noncurrent liabilities	_	(186,079)
Net assets	\$	39,047,143
Operating revenue	\$	357,366
Operating expenses		(5,761,918)
Non-operating revenue	_	31,776
Change in net assets	\$	(5,372,776)

R. <u>Related Organization</u>

Waco Education Finance Corporation is a related organization to which the City appoints board members but for which the City has no significant financial accountability.

S. <u>Subsequent Events</u>

In January 2013, the City Council passed an ordinance authorizing the issuance of up to \$52 million of general obligation refunding bonds to refund \$27 million par value of the City's combination tax and revenue certificates of obligation and \$20 million of principal and deferred interest related to a 2002 Texas Water Development Board state participation loan.

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

S. <u>Subsequent Events</u> (continued)

Additionally, in January 2013, the City Council passed an ordinance authorizing the issuance of up to \$13 million of combination tax and revenue certificates of obligation to fund capital expenditures for general government, water system and wastewater system purposes.

T. Authoritative Pronouncements Not Yet Effective

A summary of a pronouncement issued by the Governmental Accounting Standards Board (GASB) which may impact the City but is not yet effective follows. The City has not yet determined the effects of the adoption of this pronouncement on the financial statements.

<u>GASB Statement No. 61, *The Financial Reporting Entity: Omnibus – An amendment* to GASB 14 and 34 (issued November 2010) – The objective of this statement is to improve financial reporting by improving guidance for including, presenting, and disclosing information about component units and equity interest transactions of a financial reporting entity. The statement allows users of the financial statements to better assess the accountability of elected officials by ensuring that the financial reporting entity includes only organizations for which the elected officials are financially accountable or that are determined by the government to be misleading to exclude. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2012.</u>

GASB Statement No. 62, Codification of Accounting and Financial Reporting Guidance Contained in Pre-November 30, 1989 FASB and AICPA Pronouncements – The objective of this statement is to incorporate into the GASB's authoritative literature certain accounting and financial reporting guidance that is included in FASB Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins of the American Institute of Certified Public Accountants' Committee on Accounting Procedures issued on or before November 30, 1989, which does not conflict with or contradict GASB pronouncements. The provisions of this statement are effective for financial statements for periods beginning after December 15, 2011.

GASB Statement No. 63, *Financial Reporting of Deferred Outflows of Resources*, *Deferred Inflows of Resources, and Net Position* (issued June 2011) – the objective of this statement is to standardize the presentation of deferred outflows of resources and deferred inflows of resources and their effects on a government's net position by providing guidance where none previously existed. Previous financial reporting

City of Waco, Texas

Notes to Financial Statements (Continued)

IV. Detailed Notes on All Funds (continued)

T. <u>Authoritative Pronouncements Not Yet Effective</u> (continued)

standards do not include guidance for reporting these financial statement elements, which are distinct from assets and liabilities. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2011.

<u>GASB Statement No. 65, *Items Previously Reported as Assets and Liabilities* (issued <u>March 2012</u>) – The objective of this statement is to establish accounting and financial reporting standards that reclassify, as deferred outflows of resources or deferred inflows of resources, certain items that were previously reported as assets and liabilities and recognizes, as outflows of resources or inflows of resources, certain items that were previously reported as assets and liabilities. The requirements of this Statement are effective for financial statements for periods beginning after December 15, 2012.</u>

<u>GASB Statement No. 67, Financial Reporting for Pension Plans – an amendment of</u> <u>GASB Statement No. 25 (issued June 2012)</u> – the objective of this statement is to improve financial reporting by state and local governmental pension plans by establishing standards of reporting for separately issued financial reports and specifies the required approach to measuring the pension liability of employers and nonemployer contributing entities for benefits provided through the pension plan (the net pension liability). The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2013.

<u>GASB Statement No. 68, Accounting and Financial Reporting for Pensions – an</u> <u>amendment of GASB Statement No. 27 – (issued June 2012)</u> – the objective of this statement is to improve the decision-usefulness of information in employer and governmental nonemployer contributing entity financial reports by requiring recognition of the entire net pension liability and a more comprehensive measure of pension expense. The requirements of this Statement are effective for financial statements for periods beginning after June 15, 2014.

Nonmajor Governmental Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Debt Service Funds are used to account for the accumulation of resources and payment of debt for governmental funds.

Capital Project Funds are used to account for the acquisition and construction of major capital facilities other than those financed by proprietary funds and trust funds.

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the City's programs.

Nonmajor Special Revenue Funds

Special Revenue Funds are used to account for specific revenues that are legally restricted to expenditures for particular purposes.

Tax Increment Funds - These funds are used to account for the governmental activities of three tax increment districts - Reinvestment Zone Number One, Reinvestment Zone Number Two, and Reinvestment Zone Number Three.

Health Programs Fund - This fund is used to account for the activities of the City's health programs operated within McLennan County. Financing is provided from patients' fees, assessments from other governments, and other miscellaneous revenues and federal and state awards. Also included in this fund are contributions to Heart of Texas Community Health Center, Inc.

Grant Fund - This fund is used to account for the activities of all grants not accounted for elsewhere.

Waco Public Improvement District No. 1 Fund - This fund was created by the government as a means of authorizing the City to undertake improvements and services to a designated geographic area in the central business district/central city.

Abandoned Motor Vehicle Fund - This fund is used to account for the activities of the City for handling abandoned motor vehicles picked up by the Police Department and sold at public auction. Article 1436-3, Section 5 of the Penal Code and Ordinance Number 2858, Section 28-42 control the handling of abandoned motor vehicles. Financing is provided from the sale of abandoned motor vehicles at public auction.

Police Forfeiture Fund - This fund is used to account for the receipt and expenditure of revenues derived from crime seizures that are for police purposes.

Court Security Fund - This fund is used to account for the receipt and expenditure of revenues from court fines restricted for court security.

Court Technology Fund - This fund is used to account for the receipt and expenditure of revenues from court fines restricted for court technology.

Hamilton Memorial Fund - This fund is used to account for earnings from principal used for improvements to Cameron Park.

Miss Nellie's Park Maintenance Fund - This fund is used to account for earnings from principal used to maintain Miss Nellie's Pretty Place.

Nonmajor Permanent Funds

Permanent Funds are used to report resources that are legally restricted to the extent that only earnings, not principal, may be used for purposes that support the City's programs.

Rosemound Cemetery Perpetual Fund - This fund is used to account for funds previously provided by the sale of cemetery lots.

Hamilton Memorial Fund - This fund is used to account for funds provided by a private donor. Income from this fund is to be used for improvements to Cameron Park.

Miss Nellie's Park Endowment Fund - This fund is used to account for funds provided by a private donor. Income from this fund is to be used to maintain Miss Nellie's Pretty Place.

Major Enterprise Funds

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the City has decided that the determination of revenue earned, costs incurred and/or net income is necessary for management accountability.

Water Fund - This fund is used to account for the activities necessary for the provision of water services.

Wastewater Fund - This fund is used to account for the activities necessary for the provision of sewer services.

Solid Waste Fund - This fund is used to account for the activities necessary for the provision of sanitation services.

Nonmajor Enterprise Funds

Enterprise Funds are used to account for those operations that are financed and operated in a manner similar to private business or where the City has decided that the determination of revenue earned, costs incurred and/or net income is necessary for management accountability.

Airport Fund - This fund is used to account for the provision of passenger and freight air services to the residents of the City and surrounding areas.

Convention Services Fund - This fund is used to account for the provision of convention facilities.

Ranger Hall of Fame Fund - This fund is used to account for the provision of this facility to the public.

Cameron Park Zoo Fund - This fund is used to account for the provision of this facility to the public.

Transit Services Fund - This fund is used to account for the provision of public transit services to the residents of the City.

Cottonwood Creek Golf Course Fund - This fund is used to account for the provision of this facility to the public.

Statistical Section

The *Statistical Section* presents detailed information as a context for understanding what the information in the financial statements and note disclosures says about the City's overall financial health.

Financial Trends (*Tables I through IV*) - These schedules contain trend information to help the reader understand how the City's financial performance and well-being have changed over time.

Revenue Capacity (Tables V through VIII) - These schedules contain information to help the reader assess the City's most significant local revenue source, the property tax.

Debt Capacity (*Tables IX through XII*) - These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.

Demographic and Economic Information (*Tables XIII through XIV*) - These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place.

Operating Information (Tables XV through XVII) - These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs.
