

connections 2045: the waco metropolitan transportation plan

developed by the waco metropolitan planning organization
in cooperation with the following agencies:

adopted by the waco MPO policy board: January 17, 2020

table of contents

table of contents	i
section 1: introduction.....	1
1.1 – what is the metropolitan planning organization?.....	1
1.1.1 – waco MPO governance	1
1.2 – the transportation planning process.....	1
1.3 – federal legislation.....	2
1.3.1 – review of legislation since 1962.....	2
1.3.2 – FAST act overview	3
1.3.3 – clean air act and MPO attainment status	4
section 2: guiding principles.....	6
2.1 – plan objectives.....	6
section 3: geography and demographics.....	8
3.1 – regional geography.....	8
3.1.1 – physical geography	8
3.1.2 – climate and natural hazards.....	8
3.1.3 – existing land use.....	9
3.1.4 – forecasted land use.....	10
3.2 - demographics	10
3.2.1 – 2015 population.....	10
3.2.2 – 2045 population forecast.....	11
3.2.3 – 2015 employment.....	11
3.2.4 – 2045 forecasted employment.....	13
3.2.5 – travel and tourism.....	13
3.3 – title VI analysis.....	14
3.3.1 – race, ethnicity, and poverty	15
3.3.2 – travel time analysis	15
3.3.3 – automobile availability and affordability.....	16
3.3.4 – elderly population and ambulatory disabilities	17

3.4 – environmental constraints.....	18
3.4.1 – hazardous materials.....	18
3.4.2 – 4F lands	18
3.4.3 – land use takings.....	18
3.4.4 – air quality	18
3.4.5 – climate change and greenhouse gasses.....	19
3.4.6 – analysis of potential environmental impacts.....	19
section 4: modal inventory	39
4.1 – highways and bridges	39
4.1.1 – highway functional classification system.....	39
4.1.2 – regionally significant freight corridors	40
4.1.3 – bridges and low water crossings.....	41
4.1.4 – traffic signals and highway operations	41
4.2 – public transportation.....	42
4.2.1 – urban services	42
4.2.2 – rural and social service public transportation	43
4.2.3 – medicaid transportation	44
4.2.4 – intercity bus service	44
4.2.5 – ride share and ride hailing services.....	44
4.2.6 – car share and shared micromobility services.....	44
4.2.7 – other private sector services.....	44
4.3 – bicycle and pedestrian	44
4.3.1 – bicycle facilities	44
4.3.2 – pedestrian facilities.....	45
4.4 – rail.....	46
4.4.1 – freight rail.....	46
4.4.2 – passenger rail	46
4.5 – aviation.....	47
4.5.1 – commercial aviation / waco regional airport (ACT)	47
4.5.2 – general aviation	47
section 5: needs and gap analysis	62
5.1 – highways and bridges	62
5.1.1 – 2015 traffic service levels.....	62
5.1.2 – projected traffic service levels	64
5.1.3 – system resiliency and travel time reliability	66

5.1.4 – pavement condition.....	68
5.1.5 – bridge condition.....	69
5.1.6 – highway crash analysis.....	71
5.1.7 – stormwater impacts.....	76
5.2 – public transportation.....	76
5.2.1 – transit need.....	76
5.2.2 – transit coverage and gap analysis.....	78
5.2.3 – destination analysis.....	78
5.2.4 – transit asset condition.....	80
5.2.5 – transit safety measures.....	81
5.2.6 – security of the system.....	82
5.3 – bicycle and pedestrian.....	82
5.3.1 – bicycle suitability.....	82
5.3.2 – sidewalk condition inventory.....	83
5.3.3 – micromobility.....	83
5.3.4 – barriers to active transportation connectivity.....	84
5.3.5 – universe of need.....	85
5.3.6 – priority recommended projects.....	85
5.4 – freight.....	85
5.5 – intercity passenger services.....	87
5.5.1 – aviation.....	87
5.5.2 – passenger rail.....	88
5.5.3 – high-speed rail / ground transportation.....	88
5.6 – discussion regarding connected and automated vehicles (CAV).....	89
section 6: revenue forecasts.....	106
6.1 – highways and bridges.....	106
6.1.1 – federal and state revenue projections.....	106
6.1.2 – local revenue projections.....	108
6.1.3 – engineering & right of way costs.....	108
6.1.4 – no toll revenue.....	108
6.1.5 – category 12: texas transportation commission discretionary funds.....	109
6.2 – public transportation.....	109
6.2.1 – projected urban public transportation revenues.....	109
6.2.2 – projected rural public transportation revenues.....	110
6.3 – rail transportation.....	110

6.4 – note regarding aviation funding.....	110
section 7: recommendations.....	111
project identification and evaluation.....	111
project selection.....	111
10-year plan of projects.....	111
strategy 1: improve state of good repair.....	111
strategy 2: improve safety and security.....	115
strategy 3: improve system efficiency.....	117
strategy 4: improve regional livability.....	119
strategy 5: address demand for future mobility.....	123
strategy 6: provide equal access and benefits.....	129
summary of recommendations.....	131
environmental justice analysis for mix of projects.....	131
section 8: public involvement.....	139
8.1 – identification of issues and concerns.....	139
8.1.1 – bicycle and pedestrian modes.....	139
8.1.2 – MTP development kickoff meetings.....	139
8.1.3 – MPO stakeholder discussions.....	139
8.2 – MPO technical committee discussions and recommendations.....	139
8.3 – MPO policy board discussions.....	140
8.3.1 – connected and automated vehicles MPO policy board subcommittee.....	140
8.4 – MTP adoption process.....	141
8.4.1 – project priority survey.....	141
8.4.2 – formal comment period.....	141
appendix a: MPO technical committee & policy board membership.....	143
appendix b: project evaluation criteria.....	144
appendix c: comments & feedback from the public.....	153
appendix d: public survey.....	162
