Valley Mills Dr., 5028 Ridge View Dr., 1924 N. 12th St., 400 University Dr., 4900 Skeet Eason Rd., 1000 Trice Ave., 5028 Ridgeview Dr., 5201 Flat Rock Rd., 1100 University Parks Dr., 1702 Dallas St., 2906 Maple Hill Cir., 1147 Treatment Plant Rd.

Suspected cause of spill(s): substantial rainfall event

List of actions taken include, but are not limited to:

- Notification of appropriate local government officials
- Notification of TCEQ Regional Office
- Clean-up activities are underway / completed.

THIS IS NOT A BOIL WATER NOTICE. The information below includes mandatory health safety statements required by the Texas Commission on Environmental Quality. The city's wastewater collection system is completely separate from the drinking water system and **the City of Waco has no reason to believe drinking water, distributed by the City of Waco, has been compromised or affected in any way.**

Persons May Wish to Take the Following Personal Precautions:

- Persons using private drinking water supply wells located within ½ mile of the spill site or within the potentially affected area should use only water that has been distilled or boiled at a rolling boil for at least one minute for all personal uses including drinking, cooking, bathing, and tooth brushing. Individuals with private water wells should have their well water tested and disinfected, if necessary, prior to discontinuing distillation or boiling.
- Persons who purchase water from a public water supply may contact their water supply distributor to determine if the water is safe for personal use.
- The public should avoid contact with waste material, soil, or water in the area potentially affected by the spill.

- If the public comes into contact with waste material, soil, or water potentially affected by the spill, they should bathe and wash clothes thoroughly as soon as possible.
