April 6 th	7
April 7 th	2

Age groups for April 7th cases:

Age 40-49: 3 cases

Age 50-59: 1 case

Age 60 and over: 2

Persons who may think they could be sick

Anyone experiencing fever, cough and difficulty breathing should call or visit their healthcare provider's website **first** for screening. Ascension, Baylor Scott and White and the Family Health Center have on-line screening forms for COVID-19 and will accept new patients and people without insurance. **Testing must be ordered by a physician.** Testing is not done at the Public Health District.

Social Distancing is essential. Measures should include keeping a distance of at least 6 feet from others, cancelling in-person meetings and adopting the use of technology methods to meet remotely. The less time you spend with large groups of people the less likely you are to become infected. This is how we flatten the curve and help slow community spread.

COVID-19 Question Line and Website

For general questions on COVID-19, the helpline is available Monday – Friday from 8am -5pm to answer general questions. **The number is 254-750-1890.** The www.covidwaco.com site is available for more information.
