**Traffic Signals Out at 4<sup>th</sup> and 5<sup>th</sup> Streets on Waco Drive**

Earlier today a contractor hit an underground conduit which knocked out the traffic signals on Waco Drive at 4<sup>th</sup> and 5<sup>th</sup> streets. City of Waco Traffic Services immediately installed temporary stop signs while crews were able to get power to provide red flash for the 4<sup>th</sup> street intersection.

The 5<sup>th</sup> street signals will remain dark until complete repairs can be performed for both intersections. Stop signs will continue to be in place at this intersection.

Drivers are advised to be aware of the problems at these two intersections and be patient and considerate of all motorists.
