## BOTTLE BOWLING GAME

### YOU'LL NEED:

- 10 empty plastic bottles
- 1 heavy-weight ball (like a soccer ball)

### DIRECTIONS:

- Fill each bottle with water (food coloring optional)
- Place the bottles in a V-shape: 4 in the back row, 3 in the third row, 2 in the second row & 1 in the front row
- Find a ball to play with, and you're ready to go!

### TO PLAY:

Bottles are worth one point each. Players take turns rolling and are allowed two rolls, per turn. If a player knocks down all ten bottles on the first roll, they will receive 10 points and can then place all 10 bottles into a V-shape again for their second go.

Be sure to keep score. The player with the most points after five rounds wins!
