DIY ABSTRACT ART

YOU'LL NEED:

- 3 different colors of tempera paint
- 1 sheet of white paper
- Newspaper

INSTRUCTIONS:

1. Lay newspaper down to protect your table or workspace.
2. Place your sheet of white paper on the newspaper, and pour a small dab of each color of your tempera paint onto the paper. It doesn't matter what order you pour the colors, but be sure to pour them directly on top of each other.
3. Fold the paper in half.
4. Using your thumb or the palm of your hand, smooth the paint to the outside edges of the paper. Continue to push the paint out in all directions until it no longer squeezes out from the edges.
5. Carefully open the paper, and lay flat to dry overnight.
6. Enjoy your unique piece of abstract art!
