DRAGONFLY CLOTHESPIN CRAFT

YOU'LL NEED:

- 2 Pipe cleaners
- Wooden clothespin
- Googly eyes
- Paint or markers
- Glue

INSTRUCTIONS:

1. Start by painting or coloring the clothespin to make a dragonfly's body. You can paint it with a single color or make it multi-colored.
2. Place two dots of glue at the top of the clothespin (where the face will be) and stick on the googly eyes.
3. Twist the first pipe cleaner into a bow shape to resemble wings. Do the same with the second pipe cleaner.
4. Criss-cross the pipe cleaners and clip them inside the mouth of the clothespin to secure (or glue down).
5. Once the glue dries, you can have some bug-filled adventures with these colorful critters. Clip them onto twigs, leaves, curtains or anywhere else you like. You can also attach a magnet to create a fridge note or photo holder.
