FLIP CUP TIC-TAC-TOE

YOU'LL NEED:

- 8 oz. cups (in 2 different colors)
- Masking tape

HOW TO PLAY:

1. First, you will need to create a large Tic-Tac-Toe board on a table using masking tape.
2. To play, set your cup on the edge of the table, with the rim of the cup facing down (players should have different colored cups).
3. Using your fingers, flip the cup so it lands on the table with the rim facing down. If it lands with the rim facing down, you can place it on any open space on the Tic-Tac-Toe board. If the cup lands in any other position, you must place it back on the edge of the table and continue to flip until it lands with the rim facing down.
4. The object of the game is to flip as fast as you can to achieve Tic-Tac-Toe before your opponent.

NOTE:

- Once a player has placed a cup down, they cannot move it again.
- In the event all squares are filled without a winner, players may continue the game by stacking cups on top of the ones already on the board.
