IT'S IN THE CARDS GAME

YOU'LL NEED:

- Deck of playing cards
(one for every two players)

HOW TO PLAY:

1. Shuffle the cards before each game.
2. Assign values to the face cards (1 to the Ace, 11 to the Jack, 12 to the Queen and 13 to the King). For younger children, limit the game to number cards only.
3. Playing in pairs, lay the deck of cards face down on the table.
4. Each player will pull two cards from the deck and lay them face-up. Players will then subtract their lowest value card from their highest value card.
5. Whoever has the highest number wins all four cards. If the totals are the same, players should flip over two more cards and repeat until there is a winner.
6. Continue until all the cards in the deck are gone. The player with the most cards at the end of the game, wins!

NOTE:

- For this game, you can choose to add or subtract. This game provides a good opportunity for children to work on their addition and subtraction math skills.
