LADYBUG PAINTED ROCKS

YOU'LL NEED:

- Rocks
- Red paint (acrylics work great)
- Paint brush (we love sponge brushes)
- Black permanent marker or black paint
- Wiggly eyes
- Craft glue

INSTRUCTIONS:

1. Start by washing the rocks to remove any dirt or dust
2. Allow the rocks to dry, then paint them red (you may need a few layers of paint to achieve desired color)
3. Once the paint is dry, draw a straight line along the middle of the rock using a black permanent marker or paint
4. Color or paint the head black (this will be easier with paint)
5. Draw seven or more dots on the wings
6. Glue on two wiggly eyes (or paint them on)

TIP:

- Instead of paint, you can also use nail polish to color the ladybug
