PAINTING FIREWORKS WITH STRAWS

YOU'LL NEED:

- 7 bendy straws
- Red and blue paint
- White paper
- Tape
- Glitter (optional)

INSTRUCTIONS:

1. Start by stretching out the bendable part of the straws as far as they can go, then group all the straws together in your hand.
2. Spread the tops of the straws so they stick out in different directions.
3. Place a piece of tape around the top and bottom of the grouped straws to secure.
4. Dip the splayed ends of the straws into blue paint, then stamp all over the paper. If the paint doesn't show up as bright as you like, press each straw individually against the paper.
5. Add some red paint to the ends of the straws and repeat the stamping process. Sprinkle glitter on top of the paint, if you like.
6. Allow the paint to dry, then your new art is ready to display!
