POPSICLE STICK YARN ART

YOU'LL NEED:

- 2 craft sticks
- Multi-colored yarn
- Scissors
- Glue (optional)

INSTRUCTIONS:

1. Start by placing the two craft sticks together so that they form a cross. Wrap yarn around the center (or use glue) to secure.
2. Once the center is secure, wrap the yarn once around one stick, then rotate the cross and wrap yarn around the next stick. Always bring the yarn under the stick before wrapping around.
3. Continue this process, pushing the yarn snugly toward the center as you work.
4. As you work your way around, you will begin to see the weave being created. Continue the weave until you have about an inch of exposed craft stick on each point of the cross.
5. When finished, tie the end of the yarn to the stick where you ended.
