TOILET PAPER ROLL SHARK

YOU'LL NEED:

- Toilet paper roll
- Blue or grey craft paint
- White paper
- Paintbrushes
- Googly eyes
- School glue
- Hot glue gun (optional)
- Black marker

INSTRUCTIONS:

1. Cut out the “mouth” section by cutting a triangle into one end of the paper tube. Save the leftover triangle pieces for the fin and tail.
2. Paint the paper tube and leftover triangle pieces.
3. Allow the paint dry for a couple hours.
4. Cut some teeth out of plain white paper.
5. Now it’s time to assemble your shark. Glue on the googly eyes, fins tail and teeth as shown in the photo above.
6. Use a black marker to draw gills on both sides of the shark’s body.

TIP:

- If you prefer not to use paint for the shark’s body, fin and tail, you can use construction paper instead.
