1.) Closing Date and Time extended to Tuesday, August 18, 2020

2.) **Question:** In reference to Item IV. Requested Services, A. 3., please confirm that the 12-month period for work to be completed is for design only.

   **Answer:** The contract duration for design will be a maximum of 12 months and does not include the construction of the improvements. The selected consultant will review previously prepared reports and perform a design analysis for the proposed sewer improvements.

3.) **Question:** Can the City provide any recent flow testing data that has been collected, in addition to any recent studies concerning the Village Lake Lift Station and the China Spring Area Wastewater System?

   **Answer:** Gravity main from Village Lake Lift Station along Flat Rock Rd will be a 24-inch main with a projected ultimate PWWF flow of 7.35 MGD. The Village Lake Lift Station will have a projected PWWF flow rate of 1.59 MGD. Projected 2050 population for the sewer basin is 7,180 and buildout is 15,441.
